Captain Jack's Prospects.

LETTER FROM MRS. SWISSHELM.

The Business of Pauperizing Indians.

REFLECTIONS ON THE INDIAN BUREAU.

To the Editors of the Pittsburgh Gazette:

I said, in my last, "in mine haste," that Captain Jack would be turned loose. This is a mistake. The gallant Captain and several of his accomplices will be hanged. The Indian Bureau will be sorry to part with them by such public exit, for it will make it awkward to draw their annuities out of the Treasury for more than the twenty-five years in which the proper officers will be engaged in revising the lists so as to strike their names from the pay roll. If they died of small pox, there would be no call for such revision, but a public execution would make revision regular and proper, and of course it will be entered upon with alacrity. The loss on the annuities can, of course, be fully made up on the trial and execution; but still the Bureau clings tenaciously to its annuities, and will only incur the prospective loss of these, as necessary to prevent a general break up of its very profitable business.

It will never do to let Jack escape. The impudent varlet who was not content with common legal Indian game, but must needs bring down a brace of Peace Commissioners! If it was a preacher they wanted, why not take any one of the thousands who have gone to the frontier to proclaim the glad tiding to all sorts and conditions of men? He might have shot fifty of these and welcome. If it was simply a General he wanted to bag, there are Generals of State militia good enough for him. If shooting them had not been sufficient amusement, he might have roasted them when he and his whole tribe could have had days of jollity, dancing and delight in seeing the victims writhe. They might have roasted, boiled, baked, or dissected hundreds of those no-account western folks, and the Indian Aid Association would have defended the act as a national, religious right, while the Peace Commissioners would have furnished the many implements essential to carrying them on, and the general public would not have troubled itself about their pious performances; but they had grown tired of small game and must go to lion-hunting! They will find that distinguished representatives of Eastern philanthropy are outside the Indian preserves. They have raised the question of personal protection for Peace Commissioners, and it will be decided in favor of the Commissioners. There will, in the most conservative circles, be a new reading of an old law. Hitherto we have read, "Whoso, not an Indian, sheddeth man's blood, by man shall his blood be shed, or his neck be broken." This Indian reservation will lapse, for the present, to the original grantor, and the noble red man be made, for a time, to stand on a common platform with the plebeian white man who toils for his own bread and that of these copper-colored lords of the soil.

This will be but for a time, for if the Indians were left to the common working of common law, the whole business of pauperizing these sturdy rascals would come to naught. Uncle Samuel, in his character of Indian purveyor, might be unhitched from his cart load of tin ware, and stand under a tree flopping his ears, not knowing what to do next, while Mrs. Jelly, his driver, would be in as bad a fix as I once saw her, after she had fagged herself all out, and kept a whole community in a fever for weeks, during which she was robbing it, by all pious devices, of the means to start an orphan asylum; and at the end, could find no orphans. She did, to be sure, find one after a while, and as another asylum claimed him and pressed its claim, she found ample employment for herself, several committees, and a corps of paid assistants in making good her superior claim to said orphan. But the good lady, deprived of her Indians, never could find work. We might give her one little Indian, two little Indians, even three little Indian boys, and they would be a poor substitute for the seven hundred and forty-three—more or less—nations of interesting heathen, who are to be fed, clothed, candeled, and have their independence maintained through her exertions.

What matter to the Indian Bureau that the Indians knock the head out of a barrel of flour, which has cost one dollar a pound before it reaches them, and let their ponies eat it? What matter that they do the one hard day's work of a year, rolling and carrying it to the top of the highest hill they can find, that they may start it rolling down in presence of the tribe, and shout and dance and yell to see it go bounding from boulder to boulder, the white clouds spurting out between the staves and making strange marks on the ground until it comes to a general wreck at the bottom? The flour has been paid for, the barrel has been paid for, the official verbosity and pomposity used in its purchase and delivery, all the writing and advertising, the contract drawing and copying, the recording and duplicating, and double and treble duplicating, and filing and double filing, and marking and marking again; the wagon loads of stationery and reels of red tape have been paid for. Plenty of men grow fat on the flour, whether it be eaten by Indian's ponies or pigs, and of course we must continue to send on the flour. The folks who foot the bills never see them, and ask no questions for conscience sake.

This business of pauperizing Indians involves an outlay of something like one hundred millions per annum, and some one gets every dollar of the money. The people who pay it never ask or care who or for what; and, of course, it will be kept up, even if we must hang a few Indians, to compel the others to take their rations and promise to eat them in peace. So Jack must die to secure the safety of the men who deal out the tin ware and peddle around the pork, beef, beans, blankets and butcher-knives to Mr. Lo, that he may have leisure to play poker! JANE G. SWISSHELM.

CONSTITUTIONAL CONVENTION.

The Judiciary Article Still Under Consideration on Second Reading.

In Monday's afternoon session of the Constitutional Convention the article on the Judiciary on second reading occupied the day, the first nine sections being disposed of. The only material amendment adopted was that offered by Mr. Kaine, extending the original jurisdiction to the Supreme Court in cases of injunction where a corporation is a part defendant, which prevailed.

The section providing for four Common Pleas Courts in Philadelphia, of equal and co-ordinate jurisdiction, composed of three Judges each, with such an increase of these Courts as the Legislature may provide, was discussed, together with an amendment of Mr. Dallas continuing the Common Pleas and District Courts as at present, providing for court stenographers, &c.

The amendment offered by Mr. Dallas was rejected, and the section agreed to as reported. The sections providing for one Prothonotary's office and one Prothonotary for all said courts, and requiring one or more of the judges to be detailed from time to time to hold criminal court, and regulate the jurisdiction of the Courts of Common Pleas throughout the State, were agreed to as passed in Committee of the Whole. Pending the discussion upon the section allowing the accused as well as the Commonwealth in every criminal case to remove the record, etc., to the Supreme Court for review, the Convention adjourned.

TUESDAY MORNING'S SESSION.

Judge Walker, President *pro tem.*, called the Convention to order at nine o'clock yesterday morning. The Convention resumed consideration of the article on Judiciary, the tenth section, as follows: In every criminal case the accused as well as the commonwealth may remove the indictment record and all proceedings to the Supreme Court for review, in the same manner as civil cases are now removed and received, but such removal shall not, except in capital cases, be a supersedeas, unless the judge before whom the case was tried shall certify the same is a proper one for review.

A number of amendments were offered and rejected, and finally the section was lost.

—Hon. Joseph H. Brooks, at the close of his speech in Little Rock, Arkansas, on Friday night, stated that he had no doubt the Circuit Court before whom he had brought suit for the office of Governor would decide in his favor, and that as soon as it did he should qualify and take possession of the office if he had to do it by force.

LOUISIANA.

Duel Between Colonel Rhett and Judge Cooley—The Latter Killed at the Second Fire.

NEW ORLEANS, July 1.—The *Times'* special from Montgomery Station, Miss., via Bay St. Louis, July 1st, says: In the Rhett-Cooley duel, Judge Cooley was killed at the second fire. The parties arrived at this place on the same train at 10 o'clock this morning. Mr. Rhett was accompanied by Messrs. Charles Roman and Dr. Burns, and Judge Cooley was attended by Col. George W. Carter and Major McRae Selph. The weapons were double-barreled shot guns, one barrel loaded with a single ball; distance, forty yards. The ground was promptly selected, the distance measured, and the parties placed in position. At the first fire Rhett's shot ranged high, and Cooley's to the right. Cooley delivered his fire first. At the second fire both fired simultaneously, and Cooley fell mortally wounded by a shot entering his left side, and passing apparently through his heart. He expired in six minutes without apparent suffering, only speaking the words to Dr. Holliday "I am shot through the breast." The gentlemen engaged in the affair exchanged the usual civilities after the second fire, and separated with the expression of mutual respect and consideration.

The Cause of the Duel—A History of the Deceased.

NEW ORLEANS, July 1.—The *Evening Herald* has the following: For several days past the community has been much excited by an apprehended duel between Colonel R. B. Rhett, Jr., editor of the *Picayune*, and Judge William H. Cooley, leading counsel in the case of Hawkins vs. the *Picayune*. The facts of the controversy will be hereafter elicited, we presume, in full. Suffice it for the present to state that on last Friday Colonel Rhett sent a peremptory challenge to Judge Cooley, which was accepted by him. The meeting, however, had to be postponed until Tuesday on account of Judge Cooley's engagement to argue the rule for a new trial before Judge Hawkins, which came up yesterday. During the course of the argument, Judge Cooley, in offering the motion for a continuance, remarked that if the case went over until Wednesday he might not be alive to argue it, and so it has sadly turned out. To-day the parties left in the Mobile train, at 8 A. M., arriving at Montgomery station about 10 A. M., where the party disembarked. Montgomery station, where the duel occurred, is a wild, sandy-looking place, some four or five miles this side of Bay St. Louis, where the road passes through a wood, mostly of tall pines, behind which is an open field. Near by, and on the line of the railroad, is a small cottage, occupied by a family, but with this exception there are no residences nearer than three-quarters of a mile. This difficulty is one of the sad results of the iniquitous Hawkins trial against the *Picayune*, of which Col. Rhett is editor. In his speech for the prosecution Judge Cooley made reflections upon that paper, which called forth an editorial in its next issue pronouncing them false. Judge Cooley then addressed a communication to the editor, calling for explanations, which not being accorded, he followed it up by publishing a card, assailing Col. Rhett. A challenge promptly followed, and the result is now before our readers.

Judge W. H. Cooley was born in Pointe Coupee, and was the son of Judge Thos. J. Cooley, his mother being a Ledoux, also of the parish of Pointe Coupee. He was educated and graduated in the Academic Department of Transylvania University of Kentucky, in 1847, in the same year and at the same institution where Governor Voorhies graduated in law. He was subsequently appointed parish Judge of Pointe Coupee by Michael Hahn. The first appearance of Judge Cooley prominently before the New Orleans public was as a representative from Pointe Coupee in the Reconstruction Convention which sat at Mechanics' Institute, in which he took a leading part. When the reconstruction election took place, Judge Cooley, having selected New Orleans as his residence, was nominated by the Democracy as their candidate for the Judgeship of the Sixth District Court of this city, to which position he was elected, and which he maintained until the recent election, when he declined submitting his name before the Convention.

At the time of his death Judge Cooley was about forty-seven years of age. Judge Cooley was a widower, having married a Miss Plantrigune, who died about four years ago. His only child is about ten or twelve years old. His father, Judge Thos. J. Cooley, and his two brothers, James and Thomas, are well known to the legal fraternity and officers of the Court. He was a man of extraordinary natural abilities, and what he knew, either of law or language, came to him, as it were, by intuition. His mind, while it was easily warped by passion or prejudice, was exceedingly analytical, and in cases where neither personal feeling nor party animosity interfered to cloud his judgment, his decisions were almost critically correct. With an inexhaustible fund of humor, a keen sense of the ridiculous, and being an adept in the use of satire, he was at once a warm friend and bitter enemy. This is not the first duel in which he has been concerned. Some years before the war he met Dr. Kaufman, one of his parishioners, upon the field of honor, and after an exchange of shots, an amicable adjustment of the difficulty was made, and thereafter the parties became warm personal friends. He had a supreme contempt for shams, and was fond of launching the arrows of wit and sarcasm against all manner of hypocrisy. He had a religion and a code of morals peculiarly his own, and with all his eccentricities was a man of liberal ideas and warm impulses. The body was brought to this city on the evening train and left at the Lusenberg hospital. The funeral takes place to-morrow morning at 10 o'clock.

WAR DEPARTMENT, OFFICE OF THE CHIEF SIGNAL OFFICER, WASHINGTON, July 2, 1873, 1 A. M.

Synopsis for the Past Twenty-four Hours.

The barometer has risen since Monday in the Southern and South Atlantic States. An area of low pressure is apparently central in Missouri and Illinois. The temperature has risen slightly in the lower lake regions, but fallen in the Middle Atlantic States. Southerly winds and clear weather are not reported from the Southern States; light winds and clear weather in Virginia and Pennsylvania. Cloudy and rainy weather has prevailed in New England. Northerly winds with rain have extended from Kansas over the lower Missouri Valley, and thence to Lake Michigan.

Probabilities for To-Day.

For Wednesday throughout the Southern States, southern and southwest winds and rising temperature, with numerous local rains on the coast.

For the Middle States, southeasterly winds and clear weather, followed by cloudy weather on Wednesday night.

For New England, light winds and partly cloudy weather.

For the lake region, northeast and southeast winds, with cloudy and rainy weather.

Midnight telegraphic reports are missing from the upper lakes, the Northwest, Rocky Mountains and Pacific coast stations.

How Public Documents are Mailed.

The law abolishing the franking privilege having gone into effect to-day, the several Departments have detailed men especially to attach stamps to official documents, all of which have previously to be weighed, balances for these purposes being supplied to all bureaus and divisions. Five clerks are now required to affix stamps to the dead letter mail each day, one clerk formerly having been sufficient for franking. The clerks of the city post office complain of the additional labor imposed by the weighing of public documents before mailing, to ascertain whether the stamps are sufficient to cover the postage.

The Treaty of Washington.

President Grant has issued a proclamation announcing that he has received an official notification that the British and Dominion Parliaments have adopted the necessary legislation preliminary to those portions of the treaty of Washington pertaining to the fisheries and to the relations between the United States and Dominion going into effect, and that consequently they are now in full operation.

The Walworth Murder Trial—A Murderer Re-Sentenced—Japanese on their Travels—The Alleged Fraud on the Revenue Department.

NEW YORK, July 1, 1873.

The Walworth Murder Trial.

The Walworth trial was continued this morning. Dr. J. P. Gray, of the Utica Lunatic Asylum, testified to the nature of epilepsy, and said the acts committed by the prisoner, as disclosed by the witnesses, showed his case to be one of marked epilepsy. His opinion was based entirely on the truth of the facts stated.

With the testimony of Dr. Gray the defence closed their case, and the prosecution commenced their rebutting testimony.

After recess Dr. Parsons, of the New York City Lunatic Asylum, testified as to the effect of epilepsy, and gave his opinion that the facts attending the action of young Walworth did not indicate epileptic insanity.

Dr. Kellogg, of the Hudson State Asylum, and Dr. Clymer testified similarly.

The evidence was closed and O'Conor commenced summing up for the defence, consuming the rest of the day.

The Alleged Fraud on the Revenue Department.

The counsel for Duden, Freres & Co., whose books are now undergoing examination by the Customs officers, say that the charges of fraud upon the revenue brought against the firm are made by a dismissed clerk, and that the firm is innocent of all intention to defraud, and will not compromise. They also state that it proposes to meet the informer and the Custom House officers in the Courts. The only member at present in the city is a very young man, whom they recently admitted.

A Murderer Re-Sentenced.

David Murphy, for killing David Barry, was to day re-sentenced to be hanged on the second day of August. The Judge at the general term, awhile denying a motion for a new trial, unanimously recommended executive clemency.

Japanese on their Travels.

Kiyonari Yosheda and ten subordinate members of the Japanese Financial Commission, who have been traveling in Europe during the past year, arrived here yesterday, on their way to Japan.

SPORTING NEWS.

Billiards.

NEW YORK, July 1.—Cyrille Dion has challenged Garnier for one thousand dollars a side and the championship cup. Ubassy has also challenged the champion of the world, and says he will reside in the United States from October 15, next, until June 15, 1874, during which time he will be at the disposition of any billiard player in this country for a match of one thousand points, to be played on consecutive evenings, five hundred points each evening, for five hundred dollars a side, or as much more as his opponent may elect.

The Turf.

CHICAGO, July 1.—The first race was for a trotting purse of $2,000, for horses which have never beaten 2:40; $1,000 to the first, $500 to the second, $300 to the third, and $200 to the fourth. There were nine entries and five starters—Clementine, Albert, Hattie Fawcett, Chester and Gentleman Joe. In the first heat Albert came in the winner by a length, in 2:35. In the second heat, Albert took the lead at the start and maintained it to the finish, with Chester second and Clementine third; time, 2:40. The third heat was, so far as Albert was concerned, a repetition of the preceding ones, but Clementine again secured the second place, with Chester third; time, 2:41¼.

The second race was a trotting purse of $4,000 for horses that have never beaten 2:25; $2,000 to the first, $1,000 to the second, $600 to the third, and $400 to the fourth. There were six starters for this race out of the eight entries. In the first heat Hooper was the winner in 2:26¼, with Bodine second, Ripon Boy third, Joker fourth, Byron fifth, Ella Wright distanced. Bodine won the second heat in 2:25¾. Hooper won the third heat in 2:27¾. Hooper also won the fourth heat, in 2:28¾.

Quiet in Madrid.

With the exception of a few shots fired into the air last night the quiet of the city was not disturbed. Only a small number of irreconcilables are believed to be in favor of resorting to violence as a means of gaining their ends.

Particulars of the Late Engagement.

LONDON, July 1.—The *Herald* correspondent at Camp Lecumbereri says that after taking Fort Irurzun, on the 26th ult., the Carlists were attacked by a column under Castanon, two thousand strong, between Lecumbereri and Joben. Five battalions of Carlists under Elio defeated the Republicans and took cannons, baggage and eighty prisoners, including Major Ureta and one Captain. The loss of the Republicans is estimated at three hundred. The Carlist loss was nearly the same, including Majors Aspiazo and [illegible]an Jurjo, and a young son of a former Minister of War. The Marquis Vinalet Lizzarrago had two horses killed under him. Dorregarray's chief of staff was severely wounded. Nouvillas' column has arrived at Pampeluna.

An Appeal to Cubans.

MADRID, July 1.—The Minister of Colonies has sent a cable dispatch to the Captain Generals of Cuba and Porto Rico. After saluting the inhabitants of these islands without distinction of color, he declares that the Government is determined to maintain the integrity of its territory and appeals to the Cuban insurgents to desist from an aimless and inglorious war.

ALLEGHENY SCHOOL CONTROLLERS.

Regular Meeting Last Evening—The Teachers—Committee Reports, etc.

A regular monthly meeting of the Allegheny Board of School Controllers was held last evening in the Common Council chamber, city building. The following members answered to their names:

Messrs. Ashworth, Brown, Borland, Bulford, Blakely, Benney, Burchfield, Carpenter, Eaton, Cumming, Dunlap, Donaldson, Drexler, Hobson, Hanny, Hemphill, Harper, Haworth, Hays, Lea, Lorenz, Miller, Marthens, P. H. Miller, Marshall, McCance, Batterson Popp, Sprague, Smith, Slack, Torrence, Walton, Wilhelm and King, President.

A quorum being present, the minutes of the previous meeting were read and approved.

MR. MARTHENS, by permission, presented a resolution that the confirmation of the teachers elected in the different schools for the ensuing year be postponed until the Secretary prepare a list of the average attendance in each of the departments of the various schools during the past year, so that it can be seen that no more teachers are elected than are allowed by the rules. Adopted.

Mr. King presented the annual report of the Committee on School Inspection, a very interesting document, containing many valuable suggestions and recommendations relative to the condition of school buildings, and modes of teaching. The report concluded by strongly recommending the election of a city School Superintendent. The report was a very lengthy one. Received, and ordered to be published with other annual reports.

Mr. Hobson moved that one month from the present meeting, this Board go into the election for a city Superintendent.

Mr. Marthens objected to the motion. He thought this was rushing it through. He would favor the motion when he thought it would be really a necessity for improving the condition of the schools. He thought that the Board should first adopt rules for the better government of the schools, and then if necessary, a City Superintendent should be elected to enforce these rules, but as it is, he thought the Board of Controllers were able to control the schools.

The question was then on motion postponed for the time.

Mr. McCance, from the Committee on Grades and Text Books, presented his report. The committee recommended the adoption of a regular grade for all the schools; also recommended the adoption of the text books now in use in the schools. Report adopted.

Mr. Hemphill submitted a report from a portion of the committee on Teachers and salaries, containing a resolution establishing the number of pupils in each department entitled to a teacher. After some discussion the resolution was lost.

The Secretary read a list of the number of pupils in each department in each of the schools, number of teachers employed during the year, and the number of teachers to which each department if entitled.

Mr. Smith moved that the schools be entitled to one teacher for every fifty pupils in the primary department; one for every forty-five in the medium department, and one for every thirty-five in the grammar department. After considerable discussion the resolution was adopted, by a vote of 27 in favor to 12 opposed.

Mr. Marthens presented a resolution requiring the Secretary to report the number of pupils in each department in the schools, at the end of each year. Adopted.

Also, a resolution authorizing the appointment of a standing committee to be known as the Committee on Economy and Retrenchment, and defining the duties of the committee. Referred.

Mr. Benny offered a resolution authorizing the Secretary to have cards of dismission prepared, and requiring Principals to give these cards to pupils on leaving any of the public schools. Adopted.

Mr. Eaton presented a resolution authorizing the printing of two thousand copies of the annual reports. Adopted.

Adjourned.

Insurance at Home.

Insurance in Pittsburgh as an investment seems to be very paying. Of our home companies that have gained an enviable reputation abroad as well as at home, for prompt settlements and honorable dealing, the Cash Insurance Company stands second to none on the list. Their officers are eminently gentlemen of shrewd business tact, who know what they are about. The success of the Company can be no better shown, than by stating, that out of the earnings of the past six months they are able to declare [illegible] dividend of eight per cent., or four dollars [illegible] share. Their success is well earned and mer[illegible].

U. S. DISTRICT COURT.

[Before Judge McCandless.]

On petition of assignee, orders were made for the sale of certain personal property at private sale, belonging to James and Ira B. Duncan, and Robert R. Edgar, of New Brighton, bankrupts.

On motion for solicitor for debtor an order was made for the hearing upon an injunction restraining Frederick Roter, of Titusville, from disposing of property for his own use, transferred to him by Nelson L. Willard, bankrupt.

U. S. CIRCUIT COURT.

[Before Judge McKennan.]

The case of E. A. L. Roberts vs. Henry C. Carpenter, was taken up, being a motion for an attachment for violating an injunction of the Court, restraining the defendant from the use of the Roberts Torpedo patent. After a hearing the attachment was awarded, and the defendant sentenced to imprisonment for ninety days in the county jail.

DROWNED WHILE BATHING.

A Boy Drowned in the Allegheny River Last Night.

Last evening about eight o'clock, as a number of boys were bathing in the Allegheny river, near the railroad bridge, one of their number named James Smith was seen to make a dive and then arise and disappear, not again coming to the surface. His comrades, who saw him sink, attempted to go to his relief, but their efforts proved futile, as he could not be found. The boy, who resided on Webster avenue with his parents, was sixteen years of age, and has long been subject to epileptic fits, and it is supposed that he was seized with one of these in the water and was drowned. About eleven o'clock last evening his body was recovered and taken to his home. About a year ago a brother of the deceased was drowned under almost the same circumstances. Coroner West has been notified to hold an inquest.

A Sterling Institution.

Pittsburgh may well be proud of the standing of her institutions. Among those that come in the first rank of her staunchest and truest, may be mentioned the Bank of Industry, which, under the able management of its Board of Directors, has been able to float upon the sea of success. It is gratifying to see that these institutions prosper, for it shows the sterling management of its officers, and that they are ever on the alert to the interest of the patrons, as well as the stockholders of the bank. This bank is situated at No. 110 Smithfield street.

INDUSTRIAL EXPOSITION.

Yesterday's Meeting—The Board of Commissioners—Capital Stock—The President's Suggestion Concerning Dividends—The Charter—All Committees to go to Work.

An adjourned meeting of the Industrial Exposition committee was held yesterday afternoon in the Common Council chamber. The minutes of the last meeting were read and approved.

Mr. Jacob Reese, chairman, to whom was referred the appointment of a Board of fifteen Commissioners, whose duty it shall be to inquire into the feasibility of holding an exposition this fall, recommended that the number of Commissioners be increased from fifteen to twenty-five, as he found it impossible to secure a fair representation of Pittsburgh manufactures if he was limited to the naming of but fifteen men. He suggested also that the Building and Location Committees be increased from three to five each. On motion the chairman's recommendations were adopted.

The secretary then read the following appointments of the President:

Commissioners: B. F. Jones, iron; Jas. Parke, Jr., copper and steel; Mark Watson, window glass; H. W. Oliver, Jr., heavy hardware; Aaron French, railroad car springs; Wm. Clark, hoop iron; John C. Harper, press; Thomas S. Mitchell, stoves; John Hemphill, machinery; —— Hubbard, saws, axes and shovels; Chas P. Duff, colleges; S. B. McElroy, dry goods; W. E. Schmertz, shoes; J. G. Weldon, gas fixtures; Jno. Crawford, malleable castings; S. Beymer, white lead; A. Groetzinger, tanners; —— Swett, railroad spikes; H. K. Porter, locomotives; John P. Pears, flint glass; Wm. Frew, petroleum; D. W. C. Carroll, boilers; W. N. Phelps, wagons; J. C. Bidwell, plows; Jno. W. Chalfant, metal.

Finance Committee: James Littell, A. Harte, Henry Hays (of Hays & Getty), Chas. J. Clark and C. Yeager.

Charter—Maj. A. M. Brown, John B. Herron and G. Follansbee.

Buildings—Dr. A. H. Gross, Frank Bissell, C. W. Batchelor, James W. Woodwell and Alex. Speer.

Location—James B. Lyon, John Lavely, John Fleming, R. S. Smyth and R. B. Brown.

On motion of Mr. Mitchell it was decided that the capital stock of the association should be $250,000, in shares of ten dollars each.

Mr. Reese thought the project was going to be successful and that it would pay, therefore it would be but fair to anticipate a profit of at least five per cent. Taking that for a basis he suggested the idea that the dividends be declared in tickets worth fifty cents each. The owner of one share would thus be entitled to one ticket, the owner of ten shares to ten tickets, and so on. The merchants and manufacturers of the city who had customers in various parts of the city could make use of their quota of tickets by sending them to their customers. As there would be 25,000 shares, an attendance of just that number of people would be insured at the first exhibition.

On motion of Judge Parke, the suggestion of the President was referred to the Finance Committee with power to act.

The charters of the Polytechnic and Agricultural Associations, one of which it is proposed to make use of for the Exposition, were referred to the Finance Committee.

On motion of Mr. Mitchell, all committees were instructed to go to work forthwerth.

Hereafter the meetings of the Executive Committee will be held on the second and third Tuesdays of every month.

All business having been transacted, the meeting adjourned.

PREMATURE EXPLOSION.

A Man Injured While Blasting in a Quarry.

Yesterday about noon as a man named Burns was blasting rock in a quarry on Troy Hill, a blast which he had prepared partially, prematurely exploded, sending pieces of rock flying about him in all directions. His face, head and eyes were very much lacerated and burned, and he will lose the sight of his left eye entirely. His left arm was also broken by a piece of rock, and his body otherwise was considerably bruised. Drs. Hamilton, Easton and Cole were summoned, who dressed his wounds and afterwards had him removed to his home.

Dividends.

In our columns this morning will be found the notices of dividends of several of our Insurance and Banking institutions, which shows completely that Pittsburgh, as a mart of trade, is not excelled by her more pretentious neighbors. The Bank of Industry, Allegheny Homestead Bank, Allegheny National Bank, National Trust Company, Shoe and Leather Bank, Mechanics' National Bank, Merchants' and Manufacturers' National Bank, Allegheny Real Estate Bank, Pittsburgh National Bank of Commerce, the Cash Insurance Company, and several other equally sterling institutions have declared dividends, which must be very gratifying to their stock holders.

THE FOURTH.

How and Where to Spend It—Delightfully Profitable and Without Expense.

Get free tickets at the Homestead Bank and go with your friends to Homestead Park, on the Panhandle Railroad, or to Homestead Terrace, on the Allegheny Valley Railroad, and spend the day or part of it, picnicing and in examining the grounds in making selections of sites for your homes. Officers of the bank will be at each place to show the property and give lowest prices, &c.

Tickets good on any train.

THE PRICE OF LOTS AT HOMESTEAD PARK.

Cut This Out and Take it Along When you go on Excursions to Lot Sales.

The standard size of a Homestead Park lot is 80 feet front and 150 feet deep. Just *five times* the size of a "regulation" lot 24 by 100 feet.

The prices fixed on those "little farms" at Homestead Park ranges from $600 to $1,500, in 10 equal payments *without interest.* The average being about $1,000, if sold "with interest" at 6 per cent. The price of a $1,000 lot is, say, $780, or $156 for a lot of 24 feet front by 100 deep, but this takes no account of any of the other special features of the Homestead Bank's terms, to wit: free Life Insurance, second mortgage from those who build, and 8 per cent. per annum interest allowed for money paid in advance, which together may fairly be claimed as worth *at least* 20 per cent. of the nominal price of the lot which is thus reduced to (say) $125.

If Homestead Park was cut up into lots 24 feet by 100, the price would be but $156 per lot, on the "ordinary liberal terms" *required* by other people at other places.

And when anybody wants you to bid three to five hundred dollars for that kind of lots, tell him you can buy such lots at private sale on his terms at Homestead Park for less than half the money, and you can do it.

And when you are admiring the beautiful scenery, where some worse than Vandal has "laid out" a plan of 20 or even 24 feet lots, remember that when *that* town is built up (if that time ever comes), all that natural beauty will be obliterated, and remember also that at Homestead Park *this will not be so,* for it is *the only place* in Allegheny county in which the streets and avenues are laid out as to preserve the natural beauty of the situation, and in which the lots are so large as to prevent the houses being built together in "rows," shutting out the view from each other.

No attempt is made here to describe or praise Homestead Park, because the entire vocabulary of encomium has beenexhausted, and has lost its significance through the late absurd and extravagant descriptions of places no more like Homestead Park than a piebald goose is like a swan.

Those who wish to see Homestead Park and judge for themselves, are invited to call at the bank and get tickets for themselves and friends and spend a part of the "Fourth" inspecting the ground on which will shortly be seen the HANDSOMEST SUBURBAN VILLAGE IN AMERICA. Tickets good on any train.

A Good Arrangement for the Fourth.

Combine business and pleasure—go to Homestead Park, or the Terrace, and select a site for your home. Make up a party of mutual friends who think of settling in a rural place and have a good time at the same time. Free tickets for the excursion can be had at Homestead Bank, 116 Smithfield street.

A Reliable House.

It is something pleasant to have the feet well incased in Summer with neat fitting, comfortable and well made shoes. To know where such a place is to be found is not very hard to tell, when we have in our midst such a house as R. Taggart's at No. 129 Federal street, Allegheny. Mr. Taggart is eminently a practical man, a man who understands his business thoroughly, who makes it a study to please his patrons, to see that his goods give entire satisfaction. He buys no slop stock, neither does he employ slouch workmen or impolite clerks. When you purchase a pair of boots or shoes at Taggart's you may rest assured they will be found just as represented in every respect; and that the price is fully as low as they could be bought for elsewhere. Mr. Taggart makes it a speciality to keep on hand a large stock of ladies and misses button boots and gaiters, gents boots, shoes and gaiters and childrens' feet covering in every variety. In fact he keeps the choicest assortment of a first class stock. We advise you to try R. Taggart's, No. 129 Federal street, Allegheny, if you want anything in the boot or shoe line.

The Shoe and Leather Bank.

The officers of the Shoe and Leather Bank can look back with pride at the record of their business for the past six months. There is no institution in the city that has been more ably managed or honorably conducted than this bank. The officers and directors of the bank are known in business circles as gentlemen of sterling integrity, who are ever looking to the interests of their customers as well as their stockholders. This institution has gained an honorable and strong hold on our business community.

Prepare for the Fourth.

Go to Beaven's, Allegheny city, for your fruits, nuts and candies, with which to render yourselves comfortable on Independence day. He has an extensive and very excellent assortment of goods in his line, the freshest and purest to be found in either city.

Give him a call, and if you are not pleased with the quality of his goods and prices, then you are over-nice indeed.

OBITUARY.

George E. Swoope.

With feelings of the deepest sorrow we announce the death of George E. Swoope, which occurred yseterday morning at eleven o'clock. Some two months ago he was attacked with typhoid fever, but suffering a relapse, he wavered long between life and death. His friends hoped for recovery yet feared the worst. No change could be observed in his condition until a short time before his death, when it became apparent to those watching over him that he was growing weaker. Life slowly ebbed away, and without a struggle, he sank peacefully to sleep. His long, lingering illness, which was of a most painful character, he bore with the fortitude and endurance of a Christian. Not a murmur of discontent ever passed his lips. His mother, who hastened to the city immediately upon hearing of his dangerous sickness, watched over and cared for him, anticipated and supplied every want, until he died. Deceased was a law student in the office of his brother, Hon. H. B. Swoope. He gave promise of a useful life and the attainment of a high position in the calling that he had chosen. He was talented and educated, and his warm-hearted, generous disposition, combined with his many other fine social qualities, won for him many friends, all of whom will regret to learn of his death. He was a member of the First Presbyterian church of this city, Dr. Scovel's, where he constantly attended until attacked by the illness which caused his death. He was twenty-three years and six months old. His remains will be taken to Alexandria, Huntingdon county, for burial.

Young Mens' Christian Association Convention.

Excursion tickets from all points on the Pennsylvania Railroad and branches east of Pittsburgh will be sent to delegates to the International Convention, to be held at Poughkeepsie, New York, July 9th. Orders can be obtained for these tickets by sending the names of delegates at once to Thos. Marshall, Esq., Secretary Young Men's Christian Association, Philadelphia.

—The War Department will send to West Point from the Ordnance Bureau, as a trophy of the late war, the first gun fired in the cause of the rebellion. It was fired at the steamer Vicksburg, bound for New Orleans, and supposed to have arms and ammunition on board belonging to the United States. The firing took place several days before any guns were fired at United States ports or troops either at Charleston or Pensacola. It is a small four pound cannon, formerly the property of the city of Vicksburg.

—The Cincinnati *Enquirer's* special says that Gen. Brinkerhoff, chairman of the Ohio State Central Liberal Republican Executive Committee, from his home in Mansfield, over his own name, issued a call for a convention of all the elements of opposition to the Republican party, to meet at Columbus, July 30th, to confer and perhaps combine with the "new departure" Democratic Convention, known as the Allen County movement.

—The Commissioner of the General Land Office announces a ruling that parties making entries under the first section of the Timber Culture Act of March 3, 1873, are entitled to only one year to complete the planting of the prescribed area with trees.

—The British Consul General in Egypt warns travelers against taking the route via Venice to Egypt, as steamers from that city are quarantined at Alexandria on account of cholera, which is reported to exist in the northern part of the Adriatic.

NEW ADVERTISEMENTS.

U. S. PATENT OFFICE, WASHINGTON, D. C., June 27, 1873.

ON THE PETITION OF JOHN FRITZ, of Bethlehem, and George Fritz, of Johnstown, Pennsylvania, praying for the extension of a patent granted to them on the 27th day of September, 1859, for an improvement in Rolling Mills. It is ordered that the testimony in the case be closed on the 26th day of August next, that the time for filing arguments and the Examiner's report be limited to the 5th day of September next, and that said petition be heard on the 10th day of September next. Any person may oppose this extension.

SPECIAL NOTICES.

BOARD OF HEALTH, ALLEGHENY CITY, JUNE 26th, 1873.

NOTICE.—

At a meeting of the Board of Health of Allegheny City, held June 25th, 1873, the Health Officer was instructed to rigidly enforce all laws and ordinances in relation to the sanitary regulations of the city. In pursuance of said instructions, the citizens are hereby notified to have their cellars, yards and entire premises cleaned of all filth, and all garbage removed forthwith, and their premises kept in as clean a manner as possible.

The attention of Physicians is called to the following provisions in the late act creating a Board of Health in this city:

"SECTION 17.—Every practicing Physician, who shall have a patient under any malignant, pestilential or infectious disease, shall forthwith make report thereof to the Board, describing the street, number and locality of the house or place where said patient may be, and such other reasonable matters of information as the Board may require; and for neglecting so to do he shall be liable to a fine of $50 for each and every offence."

The above law will be enforced. By order of the BOARD OF HEALTH.

THE SHAH is back to London, and has visited the Bank of England. He was doubtless on a visit of business, to look after the negotiation of some extra loans.

WE ARE gratified to observe that it was not the rebel General Beauregard, but some other person, of the same name, who signed the address in behalf of the colored men in Louisiana.

ANOTHER New York murderer has, through his counsel, made the round of legal technicalities in order to avoid the penalty due his crime; but he was unsuccessful, and is sentenced to be hung in August. His name is Murphy.

"TO-DAY," the new literary weekly, published at Philadelphia, and edited by Dio Lewis, enters upon its second volume enlarged in shape and improved in style. We are informed that it already has twenty thousand circulation—a very remarkable success to achieve in so short a time.

THE recent attempt of MacMahon's government, in France, to subsidize the press, is generally interpreted as the beginning of an effort to control the public, with a view of radical and permanent change of government. The readiness with which Prince Napoleon was admitted to France, and the apparent freedom with which the Empress prepares for a journey to Paris, are looked upon as indications of the coming change.

M. M. BALLOU, the originator and responsible editor of the Boston *Globe*, has been compelled, by ill health, to resign his position. He deserves great praise for the manner in which he has performed the duties incidental to his position. The *Globe* is a valuable journal, every department showing the most painstaking care. It is not so strong in any particular department, but the uniformity of merit is its distinguished feature. It is so well established that the retirement of Mr. Ballou will not affect it, as its individuality is sufficiently stamped to be easily maintained.

As a commentary on the wisdom of the advice to the farmers West, so freely tendered, to find in home markets a relief from the oppression of railroads, we may state that in this Commonwealth Farmers' Granges are being organized. Yet we have home markets, and railroad facilities of the best description, whose charges are certainly moderate, on the average. We can readily see a reason for the farmers' movement at the West, but not in this Commonwealth. If the design is political, merely, we still see no reason for it,—as there is little prospect that the political atmosphere will be purified by merely incidently influences.

HENRY WARD BEECHER has at last clearly and specifically denied the truth of the several statements made, affecting his moral conduct. The Brooklyn *Eagle* publishes a reporter's interview with Mrs. Woodhull, in proof that Bowen had an interview with her for the purpose of securing possession of certain letters, purported to have been written her by Beecher, and which she claims furnish corroborative evidence of the truth of the charges made. Beecher, in turn, gives cordial consent to the publication of these letters—and so the matter stands. Nothing short of a thorough investigation will entirely clear up this unfortunate scandal.

THOSE who have regarded the establishment of a Republic in Spain with friendly interest cannot do otherwise than regret the present position of the Government. It has apparently lost, not merely the confidence of the people, but of itself as well. Cabinets are formed only to be dissolved. Senor Margall is full of promises which he seems incapable of fulfilling. Yet in all the dissensions and changes, nothing comes to the surface which indicates any principle, either of government or religion—and a simple lack of confidence seems to be the cause of the trouble existing. It is unfortunate, as indicating the beginning of the end. If confidence is not speedily inspired, Republicanism in Spain will prove a failure.

SAYS the *Post*, "Col. T. A. Scott and wife will shortly leave for an extended tour of the Continent on one of the Philadelphia steamships." We are curious to know just what all this means? What is the name of the continent that is "on one of the Philadelphia steamships?" Or if it is a tour on the continent of Europe, we are anxious to know just how he will manage to make it "on one of the Philadelphia steamships." We know that Colonel Scott is a wonderful man, but that he will manage to go traveling, on the Alps, for example, on a Philadelphia steamship, is a puzzle to us. As the *Post* man is evidently in possession of the secret, we hope he will have pity and divulge. We want to know.

THE project of cutting down the hill on which the Court House stands, seems to stir up the *Dispatch* and *Post* quite remarkably. They see in it danger to the cathedral, and are pathetic in their sorrows. If the cathedral is destroyed, the city will, we presume, be compelled to pay the damages,—but in this respect, while a building used for religious purposes, it cannot expect to receive more favor than is shown to other properties of like character. Whether the proposed grading will be of real benefit to the city, is a legitimate question. Whether it will, if a benefit, be of enough advantage for the outlay that will necessarily be incurred, is a legitimate issue. But no building, by itself, whether it be religious or secular, can claim special immunities.

THE Constitutional Convention, whatever other merits or demerits it may be possessed of, may be commended for the care it is taking to guard the municipalities against heavy debts. Its latest action in this direction is to prevent Commissions, which are so readily created in these days, from incurring debts in behalf of a city, without first submitting the subject to the action of the people. The Philadelphia *Telegraph* says of this: No debt whatever can then be incurred by any Commission unless the people themselves, through their responsible representatives, have authorized the incurring thereof. This in the most distinct manner confines the control of the municipal purse-strings to those to whom it belongs—the tax-payers. In a governmental system like ours, Commissions such as have been created by the Legislature are a curious anomaly, and it is not a little singular that no provision should have been made against their creation. The omission can only be explained upon the ground that so long as legislators remained true to the spirit of Republican government, such a device for evading and defying the popular will never occurred to them, or that if it did, the possibility of such device being availed of was scouted as something too monstrous to be entertained.

APROPOS of what we have written concerning the High School, it is explained to us, that the standard of examination in one particular study—history was mentioned as the one—was raised this year, and this being unknown to the Ward School teachers, the children failed in this particular study, but were well up in other branches. Presuming this to be correct, it only illustrates the bad management at the High School, where the standard was thus suddenly changed. We are gratified to learn that another opportunity is to be given those who failed, by having another examination in September. This is right and proper. We have referred to these matters on principle. The High School is practically a College for the poorer classes of people. They cannot afford to send their children to College, and yet desire to confer on them as many educational advantages as possible. Hence they economise in other directions, in order that their children may live at home, and graduate at the High School. True, this furnishes no reason why the standard of admission should be lowered, but it does illustrate the importance of having the standard clearly understood, so that no misunderstandings shall be possible. The Ward Schools and the High School should be in accord, so far as the course of study is concerned. This might be readily arranged, and this done, much of the difficulty would be done away.

THE STATE CANVASS.

A few more than half of the delegates to the August Convention at Harrisburg have been elected, and the probabilities as to the result of the canvass begin to be disclosed. There will be several candidates for each nomination to be made, and there may be something of a struggle for the nomination of Supreme Judge. Messrs. Paxson and Gordon are prominently talked of, the former having the entire Philadelphia delegation, and several other delegates. The latter will receive his support from this side of the State and from the interior counties. While the probabilities are favorable to Paxson, matters are not yet sufficiently developed for it to be regarded as at all certain that he will make the nomination. If the Treasurer is selected from this county, the natural effect will be to favor Paxson, although there is a growing feeling in the interior counties against the two principal cities of the State taking the two nominations. One will be very cheerfully accorded—but as there are but two State offices to be filled, it is claimed that one of them belongs to the country.

For State Treasurer, Messrs. Mackey, G. Dawson Coleman, and Henry, are the talked of candidates. Mr. Mackey has not specifically declared himself a candidate, but it is generally accepted as true that he will take the nomination, if it can be secured without an embittered struggle. The candidacy of Mr. Henry does not necessarily involve this, as he is understood to be urged by his friends simply because of their confidence in him as a man, and their appreciation of his fitness for the position. He will have a number of delegates, but appearances, thus far, do not justify an opinion that his strength will be very considerable. It will come almost entirely from the interior counties, and these cannot very readily make headway against the large cities. Mr. Henry is a capable and excellent gentleman, and his friends will give him an earnest support, but unless combinations are formed, he cannot hope for success.

Mr. Coleman is in Europe, and is not, personally, seeking a nomination. It is not even known as yet that he will consent to be a candidate; but his friends are in communication with him, and an earnest effort is being put forth to induce him to consent to the use of his name in the fight. Should he do this, the element opposed to what is known as "the ring" in the State will concentrate their efforts on him, and seek to put him in nomination. The claims urged in his behalf are—that he is a high-minded gentleman, of pure character, whose large wealth will place him above all the temptations usual to a position of fiduciary trust, and that thus we may expect the affairs of the Treasury to be wisely and purely administered. If he consents to be a candidate, we may anticipate a vigorous canvass, and probably an interesting, if not exciting Convention.

As we have said, Mr. Mackey has not specifically announced himself as a candidate. He has even said that if any considerable number of gentlemen should oppose his nomination, he will not accept it under any circumstances. It is said that thus far quite a number of the delegates elected, are ready to vote for him, but are not pledged, and the elections yet to occur may change the situation entirely. If in the face of a struggle he chooses to accept the nomination, it might be reached. But a determined effort, put forth in the interest of Mr. Dawson will, bring new elements into play, which may lead to a new combination, entirely. Of course, Mr. Mackey and friends, having the power, would not consent to Mr. Coleman's nomination, backed as he is, by the enemies of Mr. Mackey and friends. But should they develop considerable strength, it may be thought prudent to prevent a breach in the party, and hence to form a new combination, or harmonize on a new man. We speak of this only as a possibility—the affair not having developed sufficiently as yet for a decided theory to be framed upon it. Should any change be made in the prospects for State Treasurer, or should a candidate be finally selected from any other point in the State than Allegheny county, it is probable that it will change the nomination for Supreme Judge as well, Judge Paxson, in that event, not having much chance for the nomination.

We outline these items, not as favoring or opposing particular candidates. We are anxious simply that the nominations shall be fairly made, and that they shall comprise the best men available. Several weeks since we took this position, urging that, inasmuch as this is the "off year," the best nominations possible shall be made, in order to easy success. Our advice has been repeated by the press of the State generally, and we already see fruit in the character of the local nominations made. The disposition to suggest names in connection with the State nominations, leads us to think that care and attention will be given to the selection of a proper State ticket. Most, if not all of the delegates to the State Convention, are unpledged and free to take such course as seems to them best. If combinations are formed, their duty is, from the materials at command, to make the best ticket possible. If their work is well performed, we take it that there will be little or no contest in the State. The strength of the local tickets, added to that which will be derived from proper State nominations, will save us an exciting canvass,—a result to be devoutly wished.

POLITICAL NOTES.

THE New Hampshire *Daily Patriot* proposes General W. S. Hancock, of Pennsylvania, and Hon. W. S. Groesbeck, of Ohio, as Democratic candidates for President and Vice President for the next election.

AMONG the many candidates mentioned for Caldwell's vacant seat in the Senate are Governor Orsborne, Judge Low, I. S. Kalloch, James M. Harvey, Lieutenant Governor Stover, Sidney Clarke and James D. Snoddy.

A MASSACHUSETTS paper having proclaimed that the people of the State are not prostrate at the feet of General Butler, the Louisville *Courier Journal* remarks; "If his feet are half as dirty as his hands it is lucky for her that she isn't."

THE Richmond *Enquirer* does not look with pleasant eye on the recent movement in Louisiana for securing good feeling between the two races, and says: "Let us do as we have done and as we are doing—concede to the colored race all the liberty sustained by all the law the white race enjoys—but go on in our observance of the ordinances of Deity that keep the two peoples socially separate, while as citizens of the same country, under the same government, they live together in harmony and in friendship, with reciprocal relations of interests and rights."

CARL VOGT has been remanded to the custody of the United States Marshal for extradition to Belgium, on a charge of murder, Judge Blatchford having dismissed the writs to review the proceedings before the United States Commissioners.

ITEMS OF INTEREST.

OVERWORK is killing a great many distinguished men, but it doesn't seem to affect the truth of the apothegm that office-holders never die.

A CURIOUS wedding took place at Brushall Church recently. Each of the happy pair had wooden legs, and their acquaintance originated in the Walsall Cottage Hospital, of which they were inmates.

WISE and Donaldson, the aeronauts, are building a balloon in New York city—a private corporation bearing the expenses—in which they propose to make the voyage to Europe, starting about the 20th of August.

SINCE the fall of Khiva the Government of Russia has renewed its assurances that its troops will retire from the country when the Khan has been sufficiently punished for his treatment of Russian subjects.

NEW YORK burns about 1,000,000,000 cubic feet of gas per annum; Chicago, 400,000,000; St. Louis, 250,000,000; Cincinnati, 400,000,000; Pittsburgh, 200,000,000; San Francisco, 250,000,000, and Baltimore, 400,000,000.

A CORRESPONDENT mentions the Hungarians as the finest-looking class of men in Vienna. They are considered taller than the Austrians, very proud of their personal appearance, and wear gay and attractive uniforms.

A DISPATCH from St. Johns, Newfoundland, says the Juniata arrived there on Monday, where her bow will be sheathed with iron. It is expected that she will leave for Disco in two or three days. News is expected of Buddington and party at Cape York.

THEY must have had a "good" time at a college commencement in Indianola, Iowa, last week. A girl opened the exercises with an oration on the "Congressional Salary Grab," the poet laureate of the occasion followed it up by a vivid description of the throne in perdition, and the closing speaker dwelt on the "Progress of Republics amid the Ruins of Empire."

MARSHAL MCMAHON will put on a great deal more style at the Versailles Palace of the Presidency than did M. Thiers. His reception will be very stately, and he will set apart two days in the week—probably Monday and Thursday—for the social demands of the Presidency. Furthermore, he will not get up at 5 o'clock in the morning as did M. Thiers. He does not believe in republican simplicity.

ACCORDING to the London *Era* Sothern has made about $1,000,000 by leading a Dundreary life for sixteen years. When it is recollected that the character was intended as a minor one, and that his first representation of it was a burlesque of the playright's intention, made by Sothern in his wrath at having the part assigned him, it will be agreed, if the *Era's* figures are correct, that the wrath of Lord Dundreary of 1858 was a more profitable outburst of passion than usually falls to the lot of man.

A SPECIAL from Madrid says that the present Spanish Ministry is regarded as satisfactory by all parties. Senor Carrajal, Minister of Finance, has made arrangements to pay the coupons falling due in July. The same correspondent telegraphs that the Irreconcilables have made several significant demonstrations, but that the troops are in readiness to suppress any formidable outbreak. Another correspondent says that another crisis in Government affairs is feared.

THE late eminent financier and railroad man, Horace F. Clark, was accustomed to work for months in succession from nine in the morning until two the next morning, a fearful stretch of seventeen hours, with mind and body put to their utmost tension, on the evolution of some scheme full of excitement and risk. He was successful; but the play after all was not worth the candle. Why should a man voluntarily give so much toil and so much mental and physical force to the purchase of a six-foot lot in a fashionable cemetery?

HIRAM GARRETSON, whom Mr. Schultz has recommended to the President for General Commissioner at the Vienna Exposition, is one of the most prominent and respected of the business men of Cleveland, Ohio. He was among the original Commissioners who were suspended en masse by the State Department when the charges of corruption were made against them as a body. The investigation, however, proved that Mr. Garretson had no share whatever in the transactions charged against some of his colleagues, and he was very speedily restored to his position on the Commission.

A CORRESPONDENT having stated that all the public holidays of the present year were upon the same day of the week as in 1851, led to an examination of the matter with the following result: The years 1800, 1873, 1879, and the last ten months of 1884 have the general holidays and also the Church fasts and festivals on the same day of the week and month. The ordinary public holidays in the United States occur on the same week and month day in the years 1800, 1806, 1817, 1823, 1834, 1845, 1851, 1862, 1873, 1879, 1890, the last ten months of 1828, 1856, 1884, and the first two months of 1812 and 1896.

THE Irish temperance men held a meeting in Chicago on Sunday evening last to disavow any sympathy with the German demonstration against the temperance laws. There were present 500 representatives of the various Irish temperance societies, which have a membership of about 5,000. The resolutions adopted and the speeches made were very strong in their denunciation of the Hesing movement, and unequivocally oppose any repeal or mitigation of the Sunday or the early closing laws. Ald. McGrath was sharply rebuked for his statement that nine-tenths of the Irish were opposed to the Sunday law, and it is proposed that the Irish and Americans unite to defeat the Germans in the fall elections.

PHOEBE W. COUZINS, in the early days of the woman suffrage agitation in Pittsburgh lectured here, and became pretty well known. She is better known in St. Louis. The other day she returned a tax bill to the County Clerk, with the following endorsement on the face:

Paid under protest. In violation of the fundamental principle enunciated by the Government of the State of Missouri and the United States. "No taxation without representation."
PHOEBE W. COUZINS.

The bill amounts to $191 62, being the assessment on 37 by 134 feet on Washington avenue, in Stoddard addition, valued at $6,250, and assessed in the name of John Mahon. The Clerk looked for the "fundamental principle," but failed to find it.

A NOVEL power has been invented, according to a correspondent of the Chicago *Tribune*, who thus sets forth its nature and merits in that paper last Saturday: "I have been shown the elements and drawings of an engine to be propelled by the combination of oxygen and hydrogen in the presence of flame, producing expansion, and of course, explosion, if not under control. This power can be generated at a trifling expense—not to exceed one fourth that of steam. And by saving the weight of fuel, and much of the weight of machinery, with greatly increased activity of enginery, the result is a great gain. The momentum acquirable in this way is believed to be such that ships may cross the Atlantic in three days or even less time. The paddle appliance is also a novelty—simple, but efficient. This power is applicable equally with steam or water to any kind of machinery."

PERSONAL.

PIERRE HYACINTHE will be back next spring.

EX-GOVERNOR KENT, for whom Maine "went" in 1840, is soon to sail, with his family, for a six month's European tour.

MR AND MRS J. B. MCARTHUR, of Indianapolis, who were divorced two years ago, have been remarried, after both had vainly tried to marry somebody else.

MARSHAL MACMAHON has just been extremely gratified by the presentation of an address of congratulation from the people of Spa, where his ancestors lived and his grandfather died.

MR. GUILFORD ONSLOW, M. P., is yet convinced that the Tichborne claimant "is the man he represents himself to be," and that "in spite of the terrible amount of perjury he has to contend with he will receive an honorable and triumphant acquittal."

JUDGE JEFFREY O. PHELPS, of Simsbury, Conn., owns a piece of land which has been in the family upward of 200 years. It has been mown for the past 60 years, and it is a remarkable fact, that for the last 45 years the grass has not been cut and housed before it had been wet with rain.

THE Emperor of China has issued an edict ordering the Ysung-li Yamen to take into their consideration the ceremonial to be observed when foreign ministers are admitted to an audience. This is the first time the Emperor has been publicly and personally associated with this important question.

NASR-ED DIN, the Shah of Persia, is the son of Mohammed Shah, one of the forty-eight children of the late Abbas Miraz, eldest of the 265 children of the celebrated Fath Ali Shah. He himself is the happy father of six daughters and three sons, all grown up or nearly so, though he is only forty years of age, and they have already given him twelve grandchildren.

A HIGH-LIFE marriage recently took place in London, the parties being Lady Fanny Octavia Louisa Spencer Churchill, second daughter of the Duke of Marlborough, K. G., and Mr. Edward Majoribanks, eldest son of Sir Dudley Coutts Majoribanks. The bride's dress was of white satin, trimmed with Brussels point lace, with veil of the same fabric, and a wreath of orange blossoms. The only ornaments she wore were a necklace of pearls and a pearl diamond pendant and ear-rings, the gift of Sir Dudley and Lady Majoribanks. The Bishop of London officiated, assisted by the Rev. John E. Kempe, Rector of St. James'. The bride was given away by her father.

Mr. Mill's Autobiography.

A London correspondent says that Mr. Mill's autobiography, which is singularly brief, is almost exclusively occupied with the history of his opinions, religious, philosophical and political. It indicates changes in his views and sentiments, and the causes that contributed towards those changes; and the book possesses an extraordinary and a very intimate kind of interest. Mr. Mill's autobiography will form an admirable companion picture to Newman's "*Apologia pro Vita Sua*." Mr. Mill's two other posthumous works have been completed for some time. They form the continuation of a scheme of trilogy in which the "Essay on Liberty" may be considered the first part. Previous to the publication of that work, Mr. Mill stated that it would probably give the deathblow to any influence he possessed with the general public, but the book "On Liberty" added to his popularity instead of diminishing it. He had resolved to publish the book "On Nature" during his lifetime, judging from the reception given to "Liberty" that it might have a chance of a fair hearing. I believe, however, that he could not look forward to a period within the compass of his own life when it would be prudent to issue the last of the three works, entitled "The Utility of Religion," the contents of which will, if I am rightly informed regarding them, somewhat stagger the more or less orthodox members of the Mill Memorial Committee.

"Her Mind is Gone."

A very touching case of mental alienation in a charming young lady is described by a careful observer. Not long ago her mother found her in her room energetically darning stockings, and soon after she appeared in the kitchen, and assisted that wonderful dame in making and baking bread and pastry. Alarmed by these fearful signs of intellectual disorder, her fond parents immediately sent for a skillful physician, who watched her through a keyhole while she sewed buttons on her father's garments and mended those of her little brother. Much affected, the venerable man remarked that never during a medical practice of twenty-five years had he known any young person to manifest such symptoms as these. The most heartrending phase of all, however, was shown the other day, when her kind father, with a faint hope of rousing her from her sad state, gave her $200 and told her to buy a new dress. Alas! 'twas useless. She instantly observed that she didn't need a new dress, and if he would let her keep $25 to pay a poor widow's rent she'd much rather he would take the rest of the money for himself. For a few moments that grief-stricken old gentleman gazed upon his hapless child, then hiding his face, muttered between his sobs, "Her mind is gone! Her mind is gone.

The Press.

The newspaper people of Missouri are about to turn over a new leaf in their style of conducting business. At the recent meeting of the publishers and editors of the State a very business-like series of resolutions were passed, which, if carried out, will create some stir among Missouri politicians, who depend upon newspapers for notices and puffs to hoist them into prominence and position. These resolutions set forth that a newspaper office is a business establishment, in which the editors and publishers make a living; that a man has as much right to order a sack of coffee from a grocer, a legal opinion from a lawyer, or a coffin from an undertaker, without intending to pay for it, as he has to expect gratuitous services from a newspaper; that all personal and political matter, having for its object the promotion of individual fortunes or ambitions, should be treated as other business matters; that dead-heading, political, personal and commercial, is "played out;" and that any editor who fails to carry out the spirit of these resolutions shall cease to be a member of the Missouri Association. The reform thus instituted we hope to see spread throughout the country.

Observations on Life.

We have seen many a favorite son or daughter hastening to the grave under some undermining chronic disease. It may be Consumption, Liver Complaint, Dyspepsia, or some other malady of less fatal tendency. What are you doing for it we would ask? "Nothing," perhaps would be the answer! Why, who ever heard of such logic as that? Do nothing and expect the disease to get well! "Oh, well, some one told us it was Consumption, and Consumption could not be cured." That fatal belief has allowed thousands to pass to untimely graves. We do not say they were killed, they may not have been deceived, but there was a time in the case when it was curable. Did you never hear of DR. KEYSER'S LUNG CURE—of its wonderful powers in renewing the life and restoring the lungs? Have you not read of many who have been cured by it after all hope on life had been abandoned? Has not DR. KEYSER'S LUNG CURE, like a sign-board at the cross roads, many a time pointed you the way to a return to health and renewed life? Think of it when you are sick. Read the Doctor's treatise on Chronic Diseases, which can be had free at his medical office, 167 Liberty street, Pittsburgh, or sent to any address on application.

Library Gift Concert.
A Full Drawing Certain.
$500,000 in Bank to Pay Gifts.
10,000 Cash Gifts Paid in Full.
$100,000 for Only 10.

Enough of the 100,000 tickets issued for the Third Grand Gift Concert, in aid of the Public Library of Kentucky, having been sold to insure a full drawing, and the wish having been universally expressed that the 10,000 cash gifts offered should be drawn in full and paid in full without any scaling down, as heretofore, the management, with the concurrence of the trustees, have determined to allow ninety days more for the sale of the remnant of tickets left on hand. The Concert and distribution advertised for April 8th is, therefore, postponed to Tuesday, July 8, 1873, on which day, and no other, they will positively and unequivocally take place in Public Library Hall, Louisville, Ky.
At this grand concert the following cash gifts will be distributed by lot and paid in full to the ticket-holders who draw them:

LIST OF GIFTS.

One Grand Cash Gift	$100,000
One Grand Cash Gift	50,000
One Grand Cash Gift	25,000
One Grand Cash Gift	20,000
One Grand Cash Gift	10,000
One Grand Cash Gift	5,000
24 Cash Gifts of $1,000 each	24,000
50 Cash Gifts of 500 each	25,000
80 Cash Gifts of 400 each	32,000
100 Cash Gifts of 300 each	30,000
150 Cash Gifts of 200 each	30,000
590 Cash Gifts of 100 each	59,000
9,000 Cash Gifts of 10 each	90,000
Total, 10,000 Gifts, all Cash	$500,000

The money to pay all these gifts in full is now upon deposit in the Farmers' and Drovers' Bank of Louisville, and set aside for that purpose, and can only be used for that purpose, as will be seen by the following certificate of the Cashier:

OFFICE OF FARMERS' AND DROVERS' BANK, LOUISVILLE, KY., April 7, 1873.

This is to certify that there is in the Farmers' and Drovers' Bank to the credit of the Third Grand Gift Concert, for the benefit of the Public Library of Kentucky, five hundred thousand dollars, which has been set apart by the managers to pay the gifts in full; and will be held by the bank and paid out for this purpose, and this purpose only.
R. S. VEECH, Cashier.

The party, therefore, who holds the ticket drawing the capital gift will get $100,000 in Greenbacks, and so of the $50,000 gift, the $25,000, the $20,000, the $10,000, the $5,000, and all the other gifts, 10,000 in number, amounting to $500,000.
The remnant of unsold tickets will be furnished to those who first apply (orders accompanied by the money always having preference over agents) at the following prices: Whole tickets, $10; halves $5, and quarters $2.50; 11 whole tickets for $100, 56 for $500, 113 for $1,000, and 575 for $5,000. No discount on less than $100 worth of tickets at a time.
The concert and distribution of gifts will begin at 6 o'clock on Tuesday morning, July 8, in Public Library hall, and the following will be the order of proceedings: 1st, Music by orchestral band. 2d, Placing of tags (one for each ticket sold) in large wheel. 3d, Placing of gifts in small wheel. 4th, Music by orchestral band. 5th, Explanatory remarks by President. 6th, Drawing of first half of gifts. 7th, Music by orchestral band. 8th, Drawing of last half of gifts. 9th, Placing of large wheel with tags in hands of committee appointed by audience. 10th, Grand orchestral concert.
The music on this grand occasion will be the best that can be procured, and the gentlemen who count and place the tags and gifts in the wheels and superintend the drawing and keep the record of the drawn numbers will be chosen from the best known and most trustworthy citizens of the State. All will be so conducted as to be a perfect guaranty against complaint from any just source.
The payment of gifts will begin on Saturday, July 12, at 9 o'clock A. M. Tickets drawing gifts must be presented at room No. 4 Public Library building, where cash checks upon the Farmers' and Drovers' Bank of Louisville, or sight drafts upon the Fourth National Bank of New York, at the option of the holder, will be given for the tickets. All gifts not called for in 6 months from the drawing will be turned over to the Public Library fund.
For full particulars send for circulars.

DAILY GAZETTE.

FINANCIAL.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, July 1, 1873.

Nothing new can be said concerning the Pittsburgh money market. The supply continues in excess of the demand, and the tendency is still downward. We hear of some transactions having been effected at as low as 8 ₽ cent. for first class paper, but the ruling rates remain at 9@10 ₽ cent. ₽ annum. We anticipate a continuance of the present dullness in financial affairs until the excessive warm weather has ended. There is considerable activity in local securities just now at full rates. Real estate continues quite brisk at last week's prices. The great interest is now centred in suburban property.

The following stocks were sold last evening by A. McIlvaine, auctioneer, at his stock sales rooms, 106 Smithfield street:

Bank of Pittsburgh	71
Citizens' National Bank	71

The inquiry for loans in Chicago is apparently improving somewhat, but as the supply of funds is yet large, the increase in the demand has not the slightest effect upon the market, and prime business paper is in request at 10 ₽ cent., and in some instances 8 ₽ cent. is accepted, though such cases are not frequent. Call loans are being made at 7 and 8 ₽ cent. Real estate and accommodation paper is quiet and slow at from 12 to 15 ₽ cent.

The Philadelphia money market was steady on the first of July, when business and other settlements are invariably made, thus causing a heavy draw to be made upon the surplus funds available in the market. Rates are unusually low for this period, funds being obtained at 6@7 ₽ cent. on call and 7@8 ₽ cent. for short time accommodation. The bank statement was unfavorable, but less so than was expected, a falling off of little over $1,300,000 whilst the loans have been expanded as compared with the preceding week. At the Stock Board business was small, but prices rather firmer. Sales of city sixes at 100¼. Reading railroad sold at 55½@55¾, ex. div., an advance; Pennsylvania Railroad at 54¾; Lehigh Valley Railroad at 60¾; Huntingdon and Broadtop preferred at 15¾, and Catawissa preferred at 47¼, an advance; 32 was bid for Catawissa new preferred; 46 for North Pennsylvania; 121 for the United companies of New Jersey, and 38¾ for Lehigh Navigation.

The St. Louis Globe says: Bank rates of discount are easy, with 8@9 per cent. on acceptable paper quoted, but with a very decided leaning toward the figures first named. On the street money is plenty and rates quoted at 10 to 12 per cent, generally 10. Call loans are quiet at about 6 per cent.

The Boston Globe says: Call loans, as before, are quoted at 6 per cent, and the leading banking houses are unwilling to receive funds on deposit at over 5. On mercantile paper the range is about as before, very few sales of even the best grades being made below 6½ ₽ cent., while good names pass at 7@7½, and less well known varieties still higher.

The imports at Boston for May were to the amount of $6,322,643, and the exports to the amount of $2,908,984. For the five months of the calendar years the imports there are $2,715,022 less than in corresponding time last year. The exports for the same time are $4,670,024 greater.

The funded debt of the city of Philadelphia on the 1st of January, 1873 was $46,405,941, and the total liabilities to the same time were $53,634,479. The increase in the year 1872 was $4,867,000.

NEW YORK, July 1, 1873.

Money was easy most of the day at 4@5 per cent., but advanced to 7 toward the close, the result of the shifting of loans consequent upon July disbursements. The high rate can be only temporary, as the money recently called must quickly return to the street. Sterling was dull at 109@109¼ for sixty days, and 110@110¼ for sight. The exports for produce for the week were $6,-[illegible] 561. Gold declined from 115½ to 115¼ on moderate dealings. Loans were 1@5 per cent. Clearings $56,000,000. The Treasury disbursed $1,127,000. Custom receipts $612,000. Governments were dull, but closing strong. State bonds were inactive. Stocks have, with few exceptions, been generally strong. Pacific Mail was active, but weak, and sold off from 35½ to 34¼, recovering to 35½ at the close. Union Pacific was very weak in the forenoon on the failure to pay the interest on the first mortgage bonds, against which an injunction had been procured by the Government attorneys, and sold down from 25½ to 24¾. The announcement that the interest would be paid on Thursday on all bonds not held under Ames' contract or given in consideration of Credit Mobilier operations caused an ultimate advance to 26¾. Lake Shore was strong on a report that W. H. Vanderbilt is to be President, and advanced from 94 to 95¼. Michigan Central was very weak, and declined from 95 to 93½ on a report that the directors voted to pass the dividend. Other changes were in Western Union, 84¼ and 84⅝; Northwestern 71⅝, 71⅞ and 71¼; Erie 61½ and 62⅛; New York Central 101⅛ and 102⅛; Ohios 37⅞ and 37½; St. Paul 50⅛ and 51⅜; Wabash 69 and 69⅞; Rock Island 106¼ and 107; C. C. 29¾ and 29; Atlantic & Pacific 20 and 20⅛. The whole market closed strong.

GOVERNMENTS.—U. S. coupons of 1881, 119; 5-20s of '62, 116¾; do '64, 116¾; do '65, 117⅝; do '65 new, 116¾; do '67, 117⅝; do '68, 117; new 5s, 114; 10-40s, 114¾; currency 6s, 114⅝.

STATE BONDS.—Missouri 91½ ex. div.; Tennessee old 80½; do new, 79; Virginia new, 50; do old, 43; North Carolina old, 28½; do new, 15.

STOCKS.—Canton, 95; Western Union Telegraph, 86¾; Quicksilver, 40; Adams Express 93½; Wells, Fargo & Company's Express, 75; American Merchants' Union Express, 61¾; United States Express, 72; Pacific Mail, 36¼; New York Central, 102⅛; Erie, 62¼; do pref'd, 72⅝; Harlem, 124½; do preferred, 130; Michigan Central, 90; Pittsburgh, Fort Wayne & Chicago 87¾; Northwestern & Chicago, 72½; do preferred, 85; Rock Island, 109⅝; New Jersey Central, 103¾; St. Paul 51⅜; do preferred, 72½; Toledo & Wabash, 68½; do preferred, 80; Fort Wayne, 93; Terre Haute, 11; do preferred, 24; Chicago & Alton, 108; do preferred 109; Ohio & Mississippi, 38; Panama, 20; Illinois Central, 109; Union Pacific, 26¾; Central Pacific, 100; Union, 26; Delaware & Lackawanna, 96¾; Hartford & Erie, 2¾; Bankers' bills, 109.

LONDON, July 1—5 P. M.—Consols for money 92¾@93 for account 92⅞@93; American securities: 5-20s of '65, 92¾; do of '67, 92⅞; 10-40s, 89½; new 5s, 89¾; Erie Railway bonds, 49¾. The amount of bullion withdrawn from the Bank of England on balance today was £40,000. The rate of discount of three months' bills in open market is ¼ below the Bank rate. The announcement of a decline in British revenues flattens the market for securities, and it is probable all bonds will advance at the Bank rates.

FRANKFORT, July 1.—United States bonds: 5-20s of '62, 96⅜.

PARIS, July 1.—Rentes 55f 75c.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY July 1, 1873.

The market in a general way continues very quiet, and presents but little that is really new or important. The demand for all the leading commodities is light, and restricted mainly to supplying immediate wants, while prices generally have undergone no quotable change.

APPLES—Green Apples are in light supply and higher, but the demand is very meagre; we advance our quotations to $5@6 ₽ bri for common to good, and $7 for choice.

BUTTER—The market continues quiet, and prices are without quotable change: 8@12 for common to fair, and 15@17 for prime to choice.

BEANS—Dull; $2.50@3 ₽ bushel.

BROOMCORN—Is less excited, but prices are still maintained, ranging from 5@8c ₽ lb, the outside figure for hurl.

CHEESE—Is rather firmer under the influence of more favorable advices from New York, where prices have advanced a full cent per lb within the past few days, and the exports from that port last week are reported at 90,000 boxes, the largest shipments, with a single exception, ever made in one week. There has been no advance in our market as yet, and we continue to quote prime Ohio factory at 11c to the trade, and 12@12½ in a jobbing way.

COUNTRY BACON—Dealers all agree in reporting a very dull market, and hence, notwithstanding stocks are small, prices are weak and nominal at 5@5¼ for shoulders, 7@7½ for Clear Sides, and 8@9 for Hams. Country Lard, 7½@8.

DRIED FRUIT—There is rather more inquiry for Peaches, mainly, we should judge, on speculation, as it seems to be generally conceded that the next crop will be a light one. Prime halves quotable at 6½@7c. Apples dull and nominal at 2½@3½.

EGGS—The demand is only fair, but with continued light receipts, stocks are comparatively light, and sellers generally are bullishly inclined; quotations may be fairly given at 15@18, as to quality and condition—the bulk of the sales were at 17.

FLOUR—The market continues quiet, and prices remain unchanged; $7@7.50 for fair to choice spring wheat flours, and $8.75@9.50 for red winter wheat. Rye Flour, $5.25@5.50.

GRAIN—There is but little doing in Wheat, and the market is quiet and unchanged; common to prime red winter may be quoted at $1.45@$1.55. The Oat market is rather firmer, and notwithstanding the receipts continue liberal, and the market is well stocked, prices are well sustained; good mixed may be fairly quoted at 43@44c, and prime white at 45@46c—as yet there have been but few sales at the outside quotation. Shelled Corn is quiet and nominally unchanged at 50@54 on track, and 55@56 free in elevator. Ear Corn is in light supply but there is not much call for it: 5@57c in bulk. Rye continues dull and may be quoted at 75@80.

GROCERIES—Trade is slow and is likely to continue so during the next thirty days; the crop of small fruits, it is said, will be unusually small this year, hence, there will be a large falling off in the consumption of Sugars and this is not without its effect in keeping down prices. The New York Mercantile Journal in commenting on the grocery trade, says: "There is a dull market, as is usual at this season of the year, but aside from this there is a feeling of depression and heaviness, consequent upon the small quantities of goods entering into the general distributive trade and consumption of the entire country. The low price of produce, the high rates of freight, and the continued disposition to keep up the price of many articles of prime necessity are the cause of the prevailing inactivity and indisposition to operate except only to supply immediate needs."

COFFEE—Choice Rio, 25; Good to Prime, 22½@23½c, fair 21@21½c. Old Government Java, 28c; other Javas, 26@27c. Roasted Rio, 1 lb packages, 28c; loose, 27½c. Roasted Java, 33½.

SUGARS—Patent CutLoaf, 12½c; Crushed, Granulated and Powdered, 11⅞; Standard A, 10⅞; B, 10⅝; Ex. C, 10⅜c; C, Yellow, 10¼; Circle C, 10¼; Lower grades, 9@10.

SYRUPS—White Drips, 65; other grades ranging from 60 to 40, as to quality.

RICE—Choice Carolina, 9; prime, 8¾; Patna, 8@8; Rangoon, 7½@8.

MOLASSES—Choice New Orleans, 73@75c; Prime 70@72.

HAY—There is rather more inquiry for baled hay, and the market in consequence is a shade firmer, but there is no quotable change to make in prices; $18@25 per ton, according to quality and condition.

POTATOES—New crop were in rather better supply to day, and in consequence ruled about 50c ₽ bbl. lower. Sales were reported at $8 to $8.50. Prime old stock continue very scarce and prices are still maintained, $1.75@2 per bush.

POULTRY—Young or Spring chickens are quotable at 50 to 60 cents, and old ones at 70 to 80 per pair, according to size.

PROVISIONS—Extra Sugar Cured Hams, ₽ lb, 14½c. Ex. Sugar Cured Shoulders, 9¾c; Sugar cured Breakfast Bacon, 12½c. Extra Sugar Cured Dried Beef, 19c. Beef tongues, $7.50 ₽ dozen. Bacon Shoulders, per lb. 8¾c. Bacon Rib Sides, 9¾c. Bacon Short Rib Sides 10c. Bacon Clear Rib Sides, 10¼c. Mess Pork, $17.00 per bbl. Prime Leaf Lard, in tres, 9¾c. Refined for summer use, in tres, 9¼c. Do. half bbls, 10¼c. Do. bkts, 11c. Do. in 3 lb. caddies, 12½c. Do in 5 lb. 12½c. Do. in 3 lb. pails 13¼c: do. Do. in 6 lb. pails, 13. Refined Lard for summer use, ½ brls, 10¾.

RAGS—Quoted at 3½@3¾c.

SEEDS—Flax Seed continues scarce and sells readily at $2.10@2.12½ per bushel.

WHISKY—Highwines quotable at 93@94c per gallon.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, July 1, 1873.

The Crude market, notwithstanding there is no apparent falling off in the demand, continues weak, and prices have still further declined; quoted at Parker to-day at $1.55@1.97½ per brl equal to about 5½c per gallon delivered here. This is the lowest point it has touched for some time, and, so far as we can learn, there is nothing to prevent it from going still lower. It was thought when it had got down to two dollars that it had certainly reached bottom, but, as we have already stated, the downward course has not yet been arrested. Whether the production is falling off or increasing is a disputed point, but it must be conceded that the production is in excess of the consumption. Refined is also weak and drooping, quotable at 15@15½ free on cars here, and 18¾@18⅞ delivered in Philadelphia.

There is a steady demand for Oil Barrels, and prices are fully maintained; countries, $2.15; and city make, $2.25.

Colorado and New Mexico Sheep and Wool Markets.

The Rocky Mountain News, of recent date, has a brief article referring to the importance of Denver as a sheep and wool market. It says:—The commerce of all this mountain and prairie region, either direction for five hundred miles belongs to Denver by right, and in this case the right will prevail. Here the sheep owners of New Mexico, four and five hundred miles to the south of us, find a market for their sheep, and the vast amount of wool which they yield. Some idea may be gained of the magnitude of this industry and of its relation to Denver by reference to the News's advertising column. Benito Baca and P. C. Armijo, both owners of countless thousands of Mexican sheep, are now here for the purpose of disposing of their herds, and last evening we received advices that Mr. John Evans, of Fort Bascomb, New Mexico, is en route to Denver with 20,000 wethers. Not less than 80,000 head of sheep will be thrown on the Denver market within a week or ten days.

California Wool Clip.

The San Francisco Bulletin furnishes the appended statistics in connection with the spring clip, which it says is now mostly received: Most of the spring clip of California wool is at hand. The deliveries for the past two weeks have averaged 2,500 bales each week, against 5,000 bales per week for the three previous weeks. The stock here is larger and demand light. Since the spring clip commenced to come in, the weekly deliveries in this city have been as follows: Week ending March 8, 136 bales, do., March 15, 119 do; do., March 22, 109 do; do., March 29, 454 do; do., April 5, 666 do; do., April 12, 1,273 do., do., April 19, 4292 do; do., April 26, 3,968 do; do., May 3, 4505 do; do., May 10, 5698 do; do., May 17, 6,-929 do; do., May 24, 4624 do; do., May 31, 4,971 do; do., June 7, 2,869 do; do., June 14, 2.177 do—total 42,272 bales. Reduced to pounds these bales would weigh from 10,000,000 to 12,000,000 lbs. A good portion of this quantity has been purchased on eastern account, and is now in process of shipment.

RIVER NEWS.

The river continues to rise slowly with 4 feet 2 inches in channel; as the recent rains seem to have been general, and as both the Allegheny and Monongahela rivers are reported rising at headwaters, a fair stage of water here is expected within the next 24 hours.

The Exchange was to have left Cincinnati for this port last evening, with a good trip.

The Juniata, Capt. Brennan, will commence loading for Cincinnati to-day. She will receipt passengers and freights through to all points South, and may continue her trip to St. Louis.

The following boats will be the first to reach this port: Mollie Ebert, John A. Wood, Simpson Horner, Grand Lake No 2, Smoky City, Ironsides, John Gilmore, Wild Duck and Alice Brown. These boats were all laid up at different points between here and Cincinnati waiting for water.

The iron towboat Alex. Swift was to have left Cincinnati yesterday for Steubenville, with a tow of empty barges.

The Arlington is being overhauled at Cincinnati under the Superintendance of Captain Dan. Moore.

Work will be commenced on Capt. Darragh's new sternwheeler at once.

—A new automatic lifeboat, similar to those on Capt. Pepper's Thompson Dean, was experimented with at New Orleans last Tuesday. The Times says:

Accordingly as the hour for its trial approached, ten young men got into the boat and went out twenty yards beyond the ferry wharf, and immediately capsized the boat, which turned over the same as a barrel would, and as fast as the water would come in on its side while it tilted it would drain out when the boat became righted. This lifeboat is twenty feet in length, five feet beam, and is constructed of five eighth inch iron; will carry forty ordinary people very comfortably. The inventor of this automatic contrivance is a Mr. Reaupre of Metropolis, Ill., who has a patent for it.

—The Kansas City Times, of the 29th, says: "The rise in the river yesterday was fifteen inches, and the raging Missouri is now eleven inches higher than at any other time during the year. Above Harlem the water has overflowed the banks, and there is an apprehension that the waters will flow down upon the lower lands of Harlem and drive out the inhabitants."

—On the up trip of the Western there was a case of small-pox on board, and it was rumored at Brule Agency that she was obliged to put off her cargo and the troops four or five miles below Rice, and that the steamer would not be allowed to land at the latter place. The man who was effected was put off at Brule, and was nearly well when we passed up, but one of the men who took care of him was down with the disease.

—The LeBelle, on reaching Shreveport, her hands put up a broom and a live cock in front of the jack staff, claiming that they had beat the Moore. The LaBelle got into Twelve Mile Bayou first, which is all the advantage in a race between Shreveport and Jefferson.

—A Cairo telegram says: A large snag, directly in the channel, has made its appearance just above old Curlew trip: the best water is to the right coming down. The Ella Hughes brought 15 tons.

—The contract between Capt. E. A. Sheble and Cutting & Wood, of Metropolis, for the new steamer Joe Brown, has fallen through. Captain Sheble has concluded to repair the City of Alton and not build.

—Walker and Nellis, of Cairo, have purchased the steamer Bannock City, and are putting her in complete repair, when they will probably offer her for sale.

—The following tow boats are laid up at Middleport: Raven, N. J. Bigley, Storm No. 3, J. S. Neal, Kanawha No. 2, Humming Bird, Sam. Roberts and Oriole.

—The hull of the Leclaire was raised and moved away from the Evansville wharf, Saturday. Good progress is being made on the hull of the Commercial.

—Steamers loading at St. Louis for New Orleans only ask 25c ₽ bri on flour, and 12½c ₽ cwt on pound freights.

—Captain A. L. Flesher has re chartered the Argosy to Dan Rice to transport his circus for another six weeks.

—The John T. Moore went into Jefferson, Texas, with a tow 369 feet long, 119 feet wide. Pretty well, this, for a narrow river.

—William Fagin bought the B. L. Hodge at New Orleans, last Monday, at Sheriff's sale.

—The steamer Laura No. 2 has withdrawn from the St. Marys and Parkersburg trade.

SPECIAL NOTICES.

Speedily Cured.—All Forms of Venereal, Private and Nervous disease at the old established Girard Medical Institute, No. 173 Second avenue, between Smithfield and Grant streets, Pittsburgh, Pa.
NO CHARGE UNTIL CURED.
Syphilis, Stricture, Orchitis, Hernia and all Urinary diseases are cured in the shortest possible time that will insure permanent relief. Spermatorrhea, or Seminal weakness and impotency, as the result of self-abuse or excess in mature years, and which produce some of the following effects, as emissions, blotches, debility, dizziness, nervousness, dimness of sight, cough, indigestion, constipation, despondency, confusion of ideas, aversion to society, loss of memory, and sexual power, and which unfits the victim for business or marriage, and ultimately causing insanity and consumption, are thoroughly and permanently cured. Medicines supplied at the Institute. A medical pamphlet relating to private diseases sent in sealed envelope for two stamps. All communications confidential. This Institute was established for the express purpose of supplying the afflicted with scientific and reliable treatment, and is not to be classed with the numerous quacks and impostors that infest all large cities. The proprietors have made the treatment of Private and Special diseases the study of their lives, and can refer to thousands all over the country that have been benefitted and cured by their treatment. No matter how difficult or long standing your case may be, if curable, after a personal examination they will frankly tell you; remember, they have cured many cases given up by other physicians.
Patients treated by mail or express, but where possible, it is best to visit the city for personal consultation, or address:
GIRARD MEDICAL INSTITUTE,
No. 173 Second avenue, Pittsburgh, Pa. Office hours 9 A. M. to 9 P. M. Sundays by appointment.

HOME NEWS.

Summer Changes.

Any of our Readers who may desire to have the DAILY GAZETTE mailed to their address, out of town, during the summer months can be accommodated by leaving their names at our business office. Sent to any address for SEVENTY-FIVE CENTS a month.

Alleged Felonious Assault.

James McNally, before Deputy Mayor Irwin, charges James O'Reak with felonious assault and battery. He alleges that on Sunday last defendant stabbed him without cause or provocation. A warrant was issued for O'Reak, but he cannot be found.

Alleged Embezzlement.

James Getty, Jr., yesterday appeared before Alderman McMasters and made an information, charging John Anderson, a resident of Ohio, with embezzling three hundred and fifty dollars, which he collected as the agent of Mr. Getty in this State and elsewhere. A warrant was issued for his arrest.

A Hoax.

Yesterday Chief of Police Irwin received a dispatch from Connellsville, requesting him to send Officer Timmony up, as Lieut. M. V. B. Hazen, formerly a member of the police force of this city, was mortally wounded. Another telegram stated that Hazen had died of his wounds, but subsequent dispatches were to the effect that he was all right and on duty. What the object could have been in perpetrating such a joke it is impossible to say, and it can only be conjectured that the person who sent the telegrams might have been suffering from frequent "shots in the neck!"

European Steamship Arrivals Yesterday.

A dispatch received at Max Schamberg's European Steamship and Telegraph office, at No. 163 Smithfield street, announces the arrival of the Inman line steamer City of Paris, at New York; Anchor line steamer Anglia, at New York; N. G. Floyd line steamer Mosel, at Southampton; Inman line steamer City of Brooklyn, at Queenstown; Anchor line steamer Columbia, at Moville; Anchor line steamer Victoria, at Moville; Inman line steamer City of Bristol, at Queenstown: steamer Sidonian at New York; steamer St. Thomas at Liverpool.

Road Committee.

A meeting of the Road Committee of Councils was held yesterday afternoon in the City Clerk's office. The members present were Messrs. Laufman, Scully, Thompson, Fleming, Frew and Jones.

On motion of Mr. Scully the Road Commissioner was instructed to place the approaches to Lytle and Hazelwood avenues in an accessible condition; he was also requested to notify all property owners to at once repair all board walks or to have the work done himself and collect the costs.

A petition was presented for a board walk on Allequippa street in the Twenty-first ward, and an ordinance was ordered to be drawn up for it, also for a sewer on Brady street from Second avenue to connect with the culvert at Fifth avenue.

A remonstrance against the board walks on Homewood avenue was received and filed. The assessments of Sylvan and Greenfield avenues, and of Sylvan avenue extension, were presented and approved.

The contract for the grading, paving and curbing of Hope street was awarded to J. J. Booth.

Counterfeit Nickels.

Counterfeit nickels are circulating quite extensively in the Ninth ward, children being made the means of shoving them upon the public. Three five cent pieces were traced through a little boy to a molder, named Kurst, who left on Sunday last, saying that he was going to Philadelphia. He boarded with a Mrs. Driscoll, who lives in a court on Pike street, between Fourteenth and Fifteenth streets. One of her children, a lad of seven years, was one of Kurst's agents in circulating the counterfeit coins. A little boy named Long was detected attempting to pass it in a grocery store, and his uncle being called in, after a little corporal punishment had been administered, the little fellow was induced to tell that he got it of the Driscoll boy, who told him he got it from Kurst, who would pay them two cents apiece for passing them. The boy Driscoll was next examined, and a dollar's worth of the queer was found in his possession. He, however, stoutly maintained that he found the money on Penn avenue, and that it was not given him by Kurst at all. His mother, however, says she don't believe him. The little boy Long also says that Driscoll told him Kurst made the money at his house, a good deal of which was passed on street car conductors.

The Coal Miners.

All the miners employed in the coal works at Pool No. 1, on the Monongahela river, it is said have resumed work, while the miners of Moore, Armstrong & Bigley, on the Connellsville railroad have shut down. The miners at Hays Bros. works and Haberman's, who turned out on Friday last, resumed work on Monday, with the understanding that they would continue until the meeting of the Committee on Arbitration, which may or may not be very soon—the Coal Exchange not having appointed their committee as yet. Of course the miners have all turned in at the old prices, and to those prices the operators propose to adhere. The river is full of coal, and in case of a rise there is sufficient to furnish each tow boat with two trips. Knowing this the operators manifested little concern in regard to the course of the diggers, informing them, however, that the prospect for steady work for the whole summer, at the old prices, was good, and that any other arrangement would cause a shutting down until the present supply of coal is exhausted. In this dilemma the miners accepted the lesser evil and at present the works in pool No. 1 are in active operation.

THE VICTIM OF WHISKY.

Another Death from Intemperance.

Coroner West yesterday held an inquest on the body of Adam Wempler who had died rather suddenly at Schaffer's tavern on the South Side. The deceased had been in the employ of J. N. Schaffer, and for some time past he had been drinking to excess. Monday afternoon he took sick and died about eleven o'clock that night. The jury rendered a verdict of "death from excessive drinking." Deceased was a widower forty years of age. He leaves two children residing in Germany.

SUNDAY'S ALLEGHENY TRAGEDY.

The Inquest in the case of the Death of Harry Young—Other Parties Implicated—Warrants for them Issued—The Verdict.

Yesterday morning the inquest in the case of the child Harry Young who was killed on Sunday last, was resumed at the Coroner's office. The Commonwealth was represented by Maj. A. M. Brown and Mr. W. D. Moore appeared for the accused, Giles A. Foulkes. The evidence adduced is as follows: The first witness called was Thos. Christian. He testified as follows: Reside in Third ward, Allegheny; was standing in George Moss' yard when

THE STUMP ROLLED DOWN;

Heard a racket, and saw the stump roll down the hill; and saw three children playing below, and warned them to run; they did run but the stump overtook one of them and ran over him; witness picked the child up, and the only signs of life was a slight movement of the lip; the stump rolled up the embankment about thirty feet, and then took a diagonal direction towards Mr. Moss' house; it struck the boy when it was returning. Witness saw no stones coming down the hill before the stump came; didn't see any boys on the side of the hill except the three children referred to. The stump measured about four and a half feet each way; did not see any of the parties on the hill coming down after the stump was started; could not identify the parties on the hill. In answer to questions from Major Brown, the witness stated that the child was about 400 feet from his mother's house; he tried to move the stump after he had carried the child home, but could not do it.

George Moss, sworn—Reside on Howard street; left the child with Mr. Christian, and notified Mrs. Young of the accident. The witness described the locality of the accident and stated that his own children had played there but a few minutes before. He corroborated the testimony of the previous witness.

THE STUMP WAS TOO HEAVY

to have been rolled by one man.

Isabella Smith, sworn—Reside at No. 97 Hemlock street; we were sitting on the hillside; saw some boys and one man on the hill who were rolling stones down; they tried for an hour to loosen a stump on the brow of the hill; after they had succeeded in starting it lodged against a tree, they gave it another start and it went down the hill; a few minutes afterwards Mr. Mason told me a boy had been killed; there was only one man, but a number of boys. The Coroner asked witness if she could identify the prisoner, but she could not say that she could. Witness continued: The boys went away but the man staid quite a spell.

Martha Smith was the next witness sworn, and corroborated substantially the previous witness' testimony. She stated the stump was pried up with a board by one man, assisted by five or six boys. She thought they could have seen the children playing below; she could not identify the parties who started the stump.

George Mason was examined, but his testimony elicited nothing new, except to substantiate the other witnesses' testimony, and that he identified the prisoner as the man who was moving the stump, having been acquainted with him for four years; it was he who got the board to aid in prying out the stump; the party could not see where the children were playing; they could not see Moss' house.

Officer Jerry Smith testified to arresting Foulkes, and that he stated he would not have left his home but he thought a mob was after him, and he did not wish to fall into their hands; he also said he would have surrendered himself on Federal street, but did not see an officer.

Andrew McGibbon, sworn—Am fourteen years of age; saw the stump go down the hill; had left Mrs. Smith to go up to the quarry to get a drink; saw the stump go over the little boy; that is the man (the prisoner) who helped to start the log; did not see any person go down the hill to tell the people to get out of the way; Wm. McGibbon and Bob Tiel were in the party who rolled the stump.

William McGibbon, a lad aged nine years, stated in answer to the several questions put to him, that Mr. Foulkes sent him down the hill to tell the boys to get out of the road; told him to go down and see if there were any boys there; told the boys to get out of the way; they said, "you know us, if any of us get hurt it will be our blame." The stump was started about twenty minutes afterward; could not see the boys from where the stump was; John Moore was working at the stump too; Mr. Foulkes was the only man there; there were eight or nine boys down the hill, catching crabs in the run; told Mr. Foulkes when I came back that the boys hadn't gone away; went back again and

HALLOOED AT THE BOYS;

They didn't answer me; when I returned the stump was at the tree.

John Moore, sworn—Am sixteen years of age; reside at No. 258 Jackson street, Allegheny; I had gone to visit Mr. Foulkes on Sunday, and took a field glass with me, in order to get a view of the city from the hill; it was thought that to roll the stump down would be good fun. He then gave a description of how they worked to loosen the stump, and how it came to lodge against a tree; could not tell whether Mr. Foulkes assisted or not to loosen it from the tree; could not see any houses in the hollow from whence the stump was started; could see a house at the foot of the hill, but the stump did not go in that direction until it rebounded; heard Mr. Foulkes send the boys down the hill to warn people away; when the boys said they wouldn't go, he sent them back; when the stump started a second time did not know whether the boys were there or not.

Mrs. McGibbons, sworn—Saw the boy go down the hill and notify the boys in the hollow by shouting at them; also saw them go down the second time and throw stones at them and call to them; the boys were about half way up the hill when the stump came down.

Dr. John Kirker, who attended the boy, testified as to the extent of his injuries.

THE VERDICT.

This being the last witness, the room was cleared, and the jury, after deliberating for some time, rendered the following verdict:

"That Harry Young, the deceased, came to his death from injuries received by a stump which was rolled down a hill in the Seventh ward, Allegheny, and that Giles A. Foulkes, John Moore, and others, unknown to the jury were criminally negligent in rolling said stump down the hill."

The testimony having shown that Moore was implicated in rolling the stump, Coroner West issued a warrant for his arrest, and will also issue warrants for the arrest of the other parties implicated.

Giles A. Foulkes and John Moore waived a hearing before Mayor Callow last evening, and were held for trial, bail being refused.

POLICE COMMITTEE.

Regular Meeting Last Night—The Difficulty With the Fire Commissioners—The Mayor's Monthly Report.

A regular monthly meeting of the Police Committee was held last night in the Mayor's office.

A number of bills were referred to a special committee of examination, and several reports from sub-committees were heard and approved.

Mr. Zern, from the sub-committee appointed to confer with the Fire Commission in relation to the severing of the connection between the Fire alarm telegraph and the police dials of the Twelfth and Seventeenth wards reported on behalf of the committee. After a few facetious prefatory remarks about finding the Fire Commissioners in their room, like Modocs in their lava beds, he gave a statement of the conference which was the same in substance as was at the time published in the GAZETTE. On motion the report was received and the committee discharged.

Mr. Duff in a speech of considerable length told how the ordinance creating the Fire Commission was passed. At the time it was enacted he predicted that a conflict between the two departments would ensue if they had joint possession of the wire.

Mr. Watson said he trusted that no member of the Police committee would favor the erection of a separate wire. The Fire Commission in his opinion ought to be abolished and the whole matter referred to a committe of Councils. A motion made by him that a committee be appointed to wait upon the City Solicitor and get his opinion, in regard to the right of the Fire Commission to cut the telegraph from the police dials was carried.

Messrs. Chalmers and Loughran favored the erection of a separate wire for the benefit of the police.

On Motion Messrs. Jeremy, Chalmers and Harris were appointed to make an investigation into, certain charges preferred against persons in the Mayor's office, who, it is alleged, charge the policemen more for their clothes than they actually cost.

Mr. James S. Patterson, Mayor's clerk, submitted the following report for the month of June:

RECEIPTS.

Fines and forfeitures	$ 3,838 10
Jail and work-house receipts	658 00
Police fees	571 85
Dramatic license	120 00
	$5,187 95

The receipts for the corresponding month last year were $3,565.15, showing an increase of $1,622.80.

The police pay roll for June, amounting to $16,649.12 and office bills footing up $357.68 were approved and the committee adjourned.

COWARDLY CONDUCT.

A Man While in the Custody of an Officer is Assaulted with a Brick—Arrest of the Perpetrator.

Last evening about half-past six o'clock a dispute arose between two young men named Charles McGarvey and Henry Pyne at Chadwick's, No. 9 Wood street. It appears that the two were at supper, when a child entered the room. Pyne told the child to get a plate, when, as ... McGarvey took exception to his remark and told him to mind his own business. The landlord was sitting at the table at the time, and he told McGarvey that the conversation was not addressed to him, and to be quiet. McGarvey then, it is alleged by Pyne, took a table knife and threatened to cut him. He afterwards threw a tea-cup at him and then a loaf of bread. The landlord ordered McGarvey out; he went out on to the street and was arrested by officer George F. Alstadt. While he was in the custody of the officer, Pyne came out, and with a brick, dealt him a fearful blow over the head, causing the blood to spout in a large stream down his head. The officer then let go McGarvey and took Pyne, who has lost a leg, into custody. He then brought them to the lock-up, where Pyne was placed in a cell to await a hearing this morning. McGarvey was placed in a chair and Dr. M'Coy summoned. The physician promptly responded, and he found upon examination that the injuries inflicted were very severe. The skull was laid open on top, and a gash made about two inches long. He carefully dressed the wounds and ordered the man to be taken to the Mercy Hospital, as he was prostrated by the shock to his system, and the injury might result fatal.

Cholera may be prevented by the judicious use of DR. HARRIS' CRAMP CURE.

To Prevent Cholera.

The men at one of our largest rolling mills have adopted the plan of putting a bottle of DR. HARRIS' CRAMP CURE in a bucket of water, and taking a cup full three or four times daily. They find it a sure prevention of diseases incident to the warm weather.

The plan might with advantage be adopted at other similar establishments.

At the mill referred to we are told that not a single case of cholera morbus, diarrhœa or Dysentery occured during last summer.

BREVITIES.

....On Sunday evening a child of Mr. Porter, of Martin's Ferry, was drowned in a pit dug in the rear of her father's house.

....A meeting of the committee on the First ward contested election case has been called for Thursday evening to consider the propriety of making a report to Councils.

....There will be music in the Allegheny park to-morrow evening, if the weather is fine. The Great Western Band have arranged an artistic programme for the occasion.

....Two freight trains collided near Mingo station on the Pan Handle road yesterday morning. Several cars and the locomotive were somewhat damaged, but nobody was hurt. Traffic was delayed for some time.

....Our readers contemplating leaving the city would do well to consult the summer time-tables of the respective roads, as many changes of arrivals and departures of trains are announced in our advertising columns.

....The *Daily Derrick*, published at Oil City, has donned a handsome new dress, and makes a decidedly neat appearance. The *Derrick* deserves success and we are pleased to note the fact that it is receiving it to a good degree.

....The new hotel at Haysville was formally opened last evening. A large number of invited guests were present, from Pittsburgh and the surrounding country, and everything passed off to the entire satisfaction of the management and visitors.

....Leonidas Lodge K. of P., at its last regular meeting, elected the following officers for the ensuing year: C. C., Dr. D. F. Pennington; V. C., Wm. J. France; P., Dr. W. S. Yates; M. of F., W. H. Murphy; M. of E., A. W. Rook, P. C.; K. of R. and S., J. Beckert, Jr.; R. to G. L., A. W. Rook, P. C.

....Two wharf rats named Wm. Palmer and Joe Miller were arrested yesterday by officer Stemmler on a charge of stealing tea, coffee, sugar, rope, &c., from boat stores. It is said they belong to a gang of river rats who own a boat house along the bank of the river. Warrants are out for the balance of the crew.

....The inquest in the drowning case of the boy John Cass was concluded before the Coroner yesterday. Nothing new from what has been previously reported was developed. The boys who were with him on Sunday were found, but their statements elicited no new facts. A verdict of "accidental drowning" was rendered.

....Officer Smith, of the South Side, yesterday, arrested two children named Roach, they being in a beastly state of intoxication. The oldest is only eleven years of age and the youngest but seven. Their parents reside on Sixteenth street. It is not known where they obtained the liquor, but it is thought they got it on this side, as they were observed going over the suspension bridge.

PERSONAL.

***Hon. William A. Harlan, Washington, D. C., was registered at the Union Depot Hotel last evening.

***Officers Samuel Paisley and David J. Stewart, having resigned the police force, leave here on Thursday for New York, from whence they sail on Saturday, in the White Star Line Steamer Baltic, for Europe.

***Hon. R. H. Cain, Congressman at large elect from South Carolina, called at our sanctum yesterday. Mr. Cain is a dark-colored man—native of Virginia, but raised principally in Ohio, where he received his education at the Wilberforce University. For five or six years past he has edited and published at Charleston the *Missionary Record*, a neat, well edited and well printed sheet of twenty-four columns. On showing us a copy of this paper, Mr. Cain surprised us by stating that the type and presswork had all been executed by four colored boys, trained by himself. Judging from the appearance and conversation of Mr. Cain, and what Professor Neale tells us of him, we are prepared to hear of him in the councils of the nation as a thoughtful and wise legislator, whom it would be well if many white members we wot of would adopt for a model.

Mr. Cain is a clergyman of the M. E. Church, and if his stay shall be prolonged in the city, will afford our people an opportunity to hear him from the pulpit.

POLICE PARAGRAPHS.

Brief Mention of Criminalities.

OFFICER Junk last evening arrested a man on Main street, Allegheny, whom he caught abusing his wife.

MICHAEL CANNAN for beating and drawing a revolver on his wife, was fined fifty dollars and costs by the Allegheny Mayor yesterday.

A MAN named Boyle before Alderman Thomas is charged by Bridget Kelly with keeping a ferocious dog that bit her son. Warrant issued.

JOHN O'LEARY has made an information of surety of the peace against William Chambers, before Alderman McMasters. He alleges that defendant threatened to soften his head. Warrant issued.

MARY EVERLY and Anna Shriver, before Alderman D. L. Smith, of Allegheny, have made informations against their husbands, charging them with abandonment and desortion. Warrants issued.

JEREMIA J. WREN, yesterday made an information before Alderman McMasters, charging James Dugan with the larceny of a stone mason's hammer and trowel. The defendant was arrested and gave bail for a hearing.

OFFICERS McCurry and Barr yesterday had a lively chase after the man who had been annoying the people of the Third and Fifth Wards, Allegheny, by his indecent actions for the past three months. He was arrested last evening and gave his name as John Mansfield.

MAYOR CALLOW'S historical crutches are again performing their duty in ordering David Hutchison, Alderman Sixth ward, to locomote, who was so unfortunate as to receive a sprained knee and ankle by being thrown from his buggy. We are pleased to state the Alderman is improving as rapidly as could be expected and will soon be able to dispense with Auxiliers.

AGNES SANDERS charges Ellen Jones with practicing with a club upon her head till the blood streamed down her back in torrents. She lives to make an information against Ellen before Alderman McMasters, charging her with assault and battery. Ellen Jones, all irate at the swearing of Agnes Sanders, has made a counter charge before the same Alderman charging her and her husband, John Sanders, the former with assault and battery, and the latter with felonious assault and battery. The parties were all arrested. They reside in Cunningham's Court. Ellen Jones gave bail for Court, while John and Agnes Sanders were remanded to jail for trial in default of bail.

MEETING OF THE BROTHERHOOD OF LOCOMOTIVE ENGINEERS.

Resolutions of Thanks.

At a meeting of Division 50 of the Brotherhood of Locomotive Engineers, Messrs. F. Fleak and Wash. McCartney, Committee on Resolutions, reported as follows, the same being unanimously adopted and publication requested:

WHEREAS, The members of Division 50, B. of L. C., are desirous of expressing their grateful sense of the kindness shown them by their well-wishers and friends, upon the occasion of the celebration of their annual re-union in the groves of Hulton, June 21; therefore

Resolved, That we tender our thanks to the gentlemanly and public-spirited officers of the P. R. R., and A. V. R. R. Companies, to whose kindness we are indebted for leave of absence and free transportation.

Resolved, That our grateful acknowledgements are due Messrs. D. O. Shaver and Geo. Glass, Master Mechanics, respectively, of the P. R. R. and A. V. R. R. for favors shown us.

Resolved, That we endorse conductor Wench and engineer Cyphers as model railroaders, who spare neither courtesy nor pains to promote the comfort and ensure the safety of passengers entrusted to their care.

Resolved, That we hold in appreciative remembrance the hospitality and kind attentions of our friends and well-wishers of Hulton.

Oil Regions.

A LARGE well has been struck on the Montgomery farm, between Karns City and Millerstown. It is flowing and reported as being a big well.

COOPER Brothers have made another strike on the Riddle farm, at Karns City. The well started to flow on Tuesday evening and is regarded as a good one.

A NEW well on the Riddle farm, near Karns City, began flowing on Friday at the rate of about 200 barrels. Owned by Captain Grace and Sam. Longwell.

THE Widow Nolan farm, 150 acres, two miles below Karns City was sold Thursday to S. D. Karns and J Giely, at $150 per acre. A well on the farm is doing 100 barrels. The original owner reserved all timber and coal.

FOR some time a movement has been on foot in the lower oil region to raise stock to build a railroad between Parker City and Karns City, and a sufficient amount now having been received, ten per cent of which has been paid in, the company has organized and the work of building will be commenced at once. One hundred and fifty thousand is subscribed.

Extensive Marble Works.

The steam marble works of Messrs. Beggs & Lindsey, Nos. 63, 65 and 67 Anderson street, Allegheny, have unequaled capacity and facilities for supplying the heaviest demand for their manufactures. They have workmen of the highest degree of skill and experience. They use the very best material, and, as a consequence, their work recommends itself. They have on hand some beautiful specimens of Italian and statuary mantles; also, Tennessee, French, Scotch and Spanish colored mantles, in great profusion, beauty of finish and variety of design. They are the exclusive manufacturers of these in this city. Added to these is an extensive assortment of granite and marble monuments and tombstones, of exquisite beauty and artistic finish. For a good, well finished article, at a fair price, you should call on Messrs. Beggs & Lindsey.

P. T. BARNUM.

TO THE PUBLIC.

A rumor,—originating with, and industriously circulated by unscrupulous showmen,—having gained some credence, that I would divide my Great Traveling Exhibition on leaving Boston, I beg to state that such an idea has never been entertained for a moment. The vast enterprise, involving a cost of *one million five hundred thousand dollars*,—is the crowning event of my managerial life, and, although acting against the advice of many experienced showmen, I shall adhere to my determination to keep the monster combination intact during the entire season.

The public's obedient servant,

P. T. BARNUM.

Remember all goods must be sold, regardless of cost. All goods must be sold by the 15th of July. All I ask is only a visit from the people, so they can see what prices they have got to pay elsewhere, and how much lower they can buy it at Big 13, Sixth street; save at least 40 per cent. All I ask is a call for inspection, and I know you will go home and get money to buy with, if you have not got it with you.

There is also a large stock of fine piece goods, and two cutters to take your measure and guarantee a good suit at 40 per cent. lower than elsewhere.

Call and see the fine suit you can get made at Big 13 for $25, $30 and $35.

All imported goods are used only in the Custom Department.

All summer goods will be sold at half price; Alpaca Coats from $2 upwards.

Linens very low, having been overstocked on account of the season setting so late. I have more goods left on hand than at any former season, and being heavy in debt, I am about to sell all my stock out to pay my debts. I would ask every lady to call before purchasing elsewhere. Remember the goods must be sold or else I will have them sold for me, and I would rather give my customers the benefit of my stock.

This is a regular *bona fide* closing out sale. All the goods must be sold, and July 15 is the limit. The sale will commence to-day, and the stock will be closed out as fast as possible. Such a grand opportunity to get clothing at half price and put what is saved in the bank, ought to be improved by every wise man. Call at Big 13 and be convinced of what I can do for you.

A Rush for Concert Tickets at Louisville.

As the grand Gift Concert in aid of the Public Library of Kentucky at Louisville draws near, there is a rush for tickets at the home office.

But four days remain in which to obtain tickets and the excitement is on the increase daily. It is now more than probable that there will not be tickets enough to supply the demand and many who have put off the day will be disappointed.

The money is all in bank to pay full prizes. Who will be the lucky parties?

The prizes range from $100,000, $50,000, $25,000, $20,000, $10,000, down to $10. If persons who want tickets are not on the lookout, they will be too late. Saturday evening, 5th instant, will be the last chance.

DISCIPLINE THE LIVER.

The liver is truly an "unruly member." Sometimes it is torpid and secretes too slowly, at other times it is unnaturally active and sends forth a perfect freshet of bile. Regulate this organ with Hostetter's Bitters, not with calomel or blue mass. Mineral excitants, in stimulating the liver, poison the blood, and their ultimate effect is terrible. The Bitters, on the other hand, have a vitalizing and purifying, as well as a stimulating effect. They not only regulate the flow of bile, but infuse new life into the whole system. A good appetite, a perfect digestion, a regular, natural habit of body, a sound condition of the nervous system, vivacity of spirits, increased bodily strength and power of endurance, and refreshing sleep are among the blessings they promote. The temperature of summer is a severe tax upon the digestive and secretive organs, and the Bitters are never more indispensable than at this period of the year.

SOUTH SIDE
Dwelling Houses for Sale.
On Saturday, July 5th, at 3 O'Clock P. M.,
We will offer at public auction on the premises, the following desirable property:
Four Brick Dwelling Houses,
Containing five rooms and cellars, Nos. 318, 320, 322 and 324 Bingham street,
Three Frame Dwelling Houses,
Containing five rooms and cellars, situate immediately in rear of above, and fronting on Chestnut alley.
One lot on Chestnut street, adjoining above frame house, on which is erected a stone cellar foundation. The property has a frontage on Bingham street of 63 feet, and, preserving the same width, extends back 100 feet to Chestnut street. The houses are in good condition, roofs newly shingled; are supplied with hydrant water, and now tenanted and yielding a good rental. The property is situated in the heart of the South Side manufacturing district, about three blocks above the Smithfield street bridge, in Thirtieth ward, Pittsburgh, formerly South Pittsburgh.
TERMS:—One-third of purchase money down, balance in equal payments, one, two and three years, with interest, and secured by bond and mortgages.

FOR SALE—REAL ESTATE.

THIRTEENTH WARD
Lots for Sale Cheap.
19 LOTS
25x100 feet, about two minutes' walk from Central Car Station, Thirteenth ward. These Lots are in an eligible, healthy location and good neighborhood, near church and schools, and very desirable for dwellings. To persons of moderate means, or for an investment, they are the most desirable Lots in the market, being easy of access and but a short distance from the large manufacturing establishments of the city, and still away from the smoke and dirt of the city. Will be sold lower than any lots now in the market.

100 Quarter and Half-Acre
LOTS,
ALSO, THE
FARM HOUSE AND BARN,
With 14 acres of ground and about 400 bearing Fruit Trees; also a Farm of 125 acres, adjoining the above Lots, with about twelve acres of Coal. All of the above within from five to ten minutes' walk from Wallis Station, P. R. R. This property will be sold on easy terms. Plans can be seen at my office. This property offers better inducements for speculation than any property offered on the Pa. R. R. on account of its close proximity to the contemplated improvements of the P. R. R. Co. Inquire of
